PERFORMANCE OF THE YEAR UNDER REVIEW

Cement Division:

During the year under review, the Cement Division has produced 2,84,105 MT of cement as against 2,83,802 MT of cement for the previous year. The loss for the Division was Rs.96.21 lakhs as against Rs.242.37 lakhs loss for the previous year, due to better realisation of prices of cement.

Sugar Division:

The Sugar Division crushed 2,60,836 MT of sugarcane for the current season as against 4,56,307 MT for the previous season. The recovery rate was 9.89% compared to 10.29% for the previous season. The profit for the Division was Rs.83.40 lakhs as against Rs.126.27 lakhs for the previous year.

Power Division :

During the year under review, the Power Division has generated 12,71,44,727 KWH against 12,25,24,338 KWH of power for the previous year. The profit for the Division was Rs.684.73 lakhs as against Rs.796.00 lakhs for the previous year.

Sugar Division:

Sugarcane crop in the factory zone has been affected due to deficit rainfall for the last 2.3 years which may in turn cause shortage of sugarcane for the ensuing crushing season. However, a positive fall out of this situation aided in improving the realization of price of sugar and molasses, which is expected to continue in the near future.

Power Division:

The downward revision of tariff, by the APERC, on the power sales to APTRANSCO, will adversely affect the profitability of the Division. The matter, however, has been contested in the Courts and is pending.

FIXED DEPOSITS:

The aggregate amount of deposits accepted by the Company as on 31.03.2004 stood at Rs.285.95 lakhs. There were no fixed deposits, which were matured but not paid, other than unclaimed deposits, as on that date.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT :

a. Industry Structure And Developments :

Cement as well as Sugar industries in India are highly fragmented and scattered throughout the country. Both the Cement and Sugar industries were facing a glut like conditions in the last 4-5 years due to excess manufacturing capacities. However, the situation improved during the year under review. Demand for Cement improved, bringing the supply close to demand and a possible equilibrium position in the next one, two years. As far as Sugar is concerned, drought conditions in many parts of the country causing crop failure, brought about rather a positive effect by way of improvement in price realization on the existing stocks. However, the same cause may adversely affect future crushing operations due to non-availability of sufficient sugarcane. As far as Power operations are concerned, though the power plant is running optimally, reduction of tariff, on the power sales to APTRANSCO, by the APERC, will adversely affect the financial performance of the Division. However, the matter has been contested in the Courts of law and is pending.

b. Opportunities and threats :

The Government of India has already resolved to spend more on the infrastructure and rural development. And the sustained economic development of the country coupled with providing of incentives for housing are expected to give boost to the cement industry. Mixing of Ethanol with Petrol has improved demand for molasses, which is a positive factor for Sugar industry, which is expected to grow further. However, excess capacities in both these industries are cause for concern for the near term.

c. Segment or product-wise performance:

Segment-wise or product-wise performance has already been furnished elsewhere in this Report.

d.Outlook :

Division-wise outlook has already been furnished elsewhere in this Report.

e. Risks and concerns :

The Cement, Sugar and Power industries being core industries, there is no risk of product obsolescence nor steep fall in demand by way of product substitution or otherwise and therefore, your

KAKATIYA CEMENT SUGAR & INDUSTRIES LIMITED

Directors do not foresee any major risks and concerns, in the near future except as discussed elsewhere in this Report.

f. Internal control systems and their adequacy:

The Company has adequate internal control systems. Apart from this, the Company also has independent internal auditors, who conduct periodical audit and their report is taken into account by the Management as well as the Statutory Auditors.
