### **MANAGEMENT DISCUSSION AND ANALYSIS REPORT:**

#### **a. Industry Structure And Developments:**

Implementation of major irrigation projects, setting up of special economic zones, National and State high ways, housing projects etc has caused to increase in demand further for cement for the year 2007-08. Due to demand supply gap the prices are expected to improve further.

Cement as well as Sugar industries in India are fragmented and scattered throughout the country and have been experiencing consolidations and achieving considerable growth rates and improved price realizations.

Sugar being an agro-based industry needs good irrigation facilities. Some regions of the country having sufficient water have given good crop yields. The recent heavy rains will help in improving the local irrigation facilities which will improve the crushing in the ensuing season. As far as Power operations are concerned, the same being based on bagasse, due to sufficient availability of sugarcane, the power plant may run optimally during the year 2007-08.

#### **b. Opportunities and threats:**

With the continued emphasis by the Government on infrastructure sector and housing sector, the demand for the cement is expected to remain strong.

#### **c. Segment or product-wise performance:**

Segment-wise or product-wise performance has already been furnished elsewhere in this Report.

## **KAKATIYA CEMENT SUGAR & INDUSTRIES LIMITED**

### **d. Outlook:**

Division-wise outlook has already been furnished elsewhere in this Report.

### **e. Risks and concerns:**

The Cement, Sugar and Power industries being core industries, there is no risk of product obsolescence nor steep fall in demand by way of product substitution or otherwise and therefore, your Directors do not foresee any major risks and concerns, in the near future except as discussed elsewhere in this Report.

### **f. Internal control systems and their adequacy:**

The Company has adequate internal control system. Apart from this, the Company also has independent internal auditors, who conduct periodical audit and their report is taken into account by the Audit Committee for its review and suggest remedial actions wherever required.
