## IMPORTANT COMMUNICATION TO MEMBERS

In view of the 'Green Initiative in Corporate Governance' introduced by the Ministry of Corporate Affairs (vide Circular Nos. 17/2011 and 18/2011 dated April 21 and April 29, 2011 respectively), which allows the paperless compliances by the companies and permits service of documents including Annual Report to its members through electronic modes. In the backdrop of this, the Company has given an option to the shareholders to receive the Notices, Annual Report, etc. through e-mail and for the purpose of facilitating the shareholders to register their e-mail address with the company, a separate letter alongwith self addressed (i.e. address of RTA) envelope is sent alongwith this Annual Report on which stamp charges will be paid by the Company. The Company appeals to the shareholders to fill the same and send the same to the RTA of the Company and cooperate the Company and contribute in implementation of green initiative relating to paperless governance.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

## A. GENERAL ECONOMIC SCENARIO:

According to the first advance estimates of national income for the year 2012-13 of the Central Statistics Office (CSO), the Indian economy is expected to grow at its slowest pace in a decade at a mere 5 per cent in 2012-13, on the back of dismal performance by the farm, manufacturing and services sectors, The estimate is lower than the 6.2 per cent growth clocked in 2011-12 and is the lowest since 2002-03, when the economy grew by 4 per cent only.

The index of industrial production (IIP) with 2004-05 as base is the leading indicator of industrial performance in the country. As per the IIP, industrial output growth rate was 0.7 per cent during April-December 2012 as compared to 3.7 per cent in the same period of the previous year. Combination of global and domestic factors has led to deceleration in the industrial output during the current year. With improved business sentiments and investor perception and a partial rebound in industrial activity in other developing countries, industrial growth is expected to improve in the next financial year.

#### B. CONSTRUCTION AND INFRASTRUCTURE SECTOR IN INDIA:

The Planning Commission's XIth Five-Year Plan (2007-2012) had already identified that inadequate infrastructure was a major constraint on the country's rapid growth. The Plan had, therefore, emphasized the need for massive expansion in investment in infrastructure based on a combination of public and private investment, the latter through various forms of public-private partnerships

The Government of India realizes the importance of accelerating the investments in infrastructure to boost the country's slowing economy. Therefore, it has set a massive target for doubling investment in infrastructure from Rs. 27 lakh crores (eleventh plan – 2011/12 prices) to Rs 51 lakh crores during the twelfth plan period, i.e., 2012–2017.The share of infrastructure investment in GDP is planned to be increased to more than 10% by the end of the twelfth plan. This investment, if it materializes, can propel India's economic growth to a higher trajectory.

Planning commission is expecting private sector to play a key role in twelfth plan with an overall investment growth of 131%. Private investment is projected to grow in all the infrastructure sectors with Railways, Water Supply, Storage and Ports projected to grow at >200% whereas investment in other sectors is projected to grow at >100%. Overall private sector investment will be a key to success of infrastructure development under twelfth five year plan. Considering the critical need of developing infrastructure in the country, construction activities are crucial for creating physical infrastructure in the country. Therefore, there is considerable long term business scope for players in the Infrastructure related large scale construction business.

#### C. CAPITAL MARKETS IN INDIA:

A benchmark index for Indian equities markets closed more than half a percent up on the last day of 2012-13 financial year on the back of healthy buying in metal, bank and capital goods stocks and settlement of monthly derivatives contracts. The 30-scrip sensitive index (Sensex) of the Bombay Stock Exchange (BSE), which opened in the red at 18,702.46 points (closed at 18,835.77 points, up 0.70 percent or 131.24 points from its previous day's close at 18,704.53 points. The Sensex has gained 1,431.57 points or 8.23 per cent in 2012-13 fiscal. The wider 50-scrip S&P CNX Nifty of the National Stock Exchange (NSE) also closed 0.73 percent or 40.95 points up at 5,682.55 points.

#### Primary Market

Riding on the wave of disinvestment of public sector undertakings, promoters of Government and private companies managed to collect over Rs 34,000 crore by selling shares in the primary market during 2012-13. This is 44 per cent higher than 2011-12 figures. The mobilization in the year could have been higher but for the deferment of some large PSU (public sector undertakings) offerings and continuing volatility in the secondary market, through the year. The year, of course, fell substantially short of Rs 52,219 crore, the highest amount that has ever been raised (in 2007-08).

KCL Infra Projects Limited

#### Secondary Market

The monthly turnover of BSE (cash segment) increased by 12.5 percent from US\$ 9.32 billion in December 2012 to US\$ 10.49 billion in January 2013.Monthly turnover of NSE (cash segment) also increased by 22.9 percent from US\$ 44.48 billion in December 2012 to US\$ 54.68 billion in January

During 2012-13 (up to January 23, 2013), FIIs made net investments of Rs.1,190 billion in the capital market (both equity and debt) compared with that of Rs. 520 billion during the corresponding period in the previous year. FIIs made net investments of Rs.1,011 billion in the equity markets compared with Rs. 27 billion last year.

Domestic institutional investors (DIIs) (comprising banks, domestic financial institutions, insurance companies, new pension fund and mutual funds) made net sales during 2012-13 (up to January

#### Equity Derivatives

The NSE and BSE are two major Indian markets have shown a remarkable growth both in terms of volumes and numbers of traded contracts. Introduction of derivatives has been well received by stock market players. NSE alone accounts 99% of the derivatives trading in Indian markets.

If we compare the business growth of NSE and BSE in terms of number of contracts traded and volumes in all product categories the NSE traded 636132957 total contracts whose total turnover is Rs.16807782.22 crore in the year 2012-13 in futures and options segment while in currency segment in 483212156 total contracts have traded whose total turnover is Rs.2655474.26 crore segment in 483212156 total contracts have traded whose total turnover is KS.2000474.26 trole in same year. In case of BSE the total numbers of contracts traded are 150068157 whose total turnover is Rs.3884370.96 Cr in the year 2012-13 for all segments. In the above case we can say that the performance of BSE is not encouraging both in terms of volumes and numbers of contracts traded in all product categories.

## Reasons for Market Movements

- The fund mop-up by companies through sale of shares has crossed Rs. 30,000 crore mark in 2012 despite a volatile market and the figure is expected to be much higher next year, given a strong line-up of capital raising plans through IPOs and other equity issuance routes.
- In the year 2012, around Rs. 30,500 crore were mopped-up through share-sale programme and major chunk of funds, which was Rs. 23, 800 crore, garnered through OFS route, and the remaining about Rs.6,693 crore through IPOs. In comparison, there were 37 IPOs and 2 FPOs in 2012. The total fund raising through public issues was about Rs. 14,000 crore, including Rs. 8,137 crore through FPOs.
- Historically low yields in developed markets due to accommodative monetary policies and weak economic prospects have pushed FII inflows to emerging markets to record highs.
- Strong FII inflows, especially in H2 of 2012-13 augured well for the Indian equity market and the rupee, although the market movements were also conditioned by domestic slowdown and governance concerns. Primary equity market, however, remain subdued.
- Globally, leaders are striving to keep the pace of growth intact.

## REVIEW OF COMPANY'S BUSINESS OPERATIONS:

KCL Infra Projects Limited is a Company operating in two segments – one is construction and infrastructure development segment and the other is the dealing in shares, securities and derivatives segment. During the years 2006 to 2010, the Company could not found any significant business opportunity in construction and infrastructure segment. However, from the financial year 2010, 11, the company is straight and to find various growth opportunities in construction and 2010-11, the company is striving hard to find various growth opportunities in construction and infrastructure segment also and during the year 2012-13, the company has earned a turnover of about Rs. 50.00 Lacs from this segment.

The Company has done the major business of dealing in shares, securities and derivatives.

The turnover of the Company in this segment accounted for about Rs. 353.10 Lacs during the

The total turnover of the Company was Rs. 403.104 Lacs as compared to the turnover of Rs. 2,217.48 Lacs of the previous year 2011-12 showing an increase of 81.82%. Similarly the net profit of the Company during the year 2012-13 was Rs.17.95 Lacs as compared to the net profit of Rs.11.26 Lacs of the previous year 2011-12 showing an increase of about 59.46%.
