ANNUAL REPORT 2007-08**MANAGEMENT DISCUSSION AND ANALYSIS****1. INDUSTRY STRUCTURE AND ITS DEVELOPMENTS :**

The Company is engaged in capital goods sector, manufacturing Plastic Extrusion Machinery, specialising in manufacture of plants to produce a wide range of Plastic Pipes i.e. PVC, HDPE, LDPE, PP, Composite Pipes etc. PVC pipes sector has almost 40% share of total PVC resin business. Pipe extrusion machinery is the largest market and the Company has about 65% share in this segment. The extrusion machinery industry, being linked to plastic consumption, has significant growth potential. The domestic production of extrusion machinery is around Rs. 700 crores. It consists of plants for making pipes (Rs. 150 crores) films (Rs. 150 crores), tapes (Rs. 125 crores), sheet lines, profiles, pelletising, etc. (Rs. 275 crores). Demand is growing in double digit, driven by thrust on agriculture, water management, construction, telecom, packaging applications, organized retailing, etc.

PVC pipes consumption has been recording high double digit volume growth. Traditionally, pipes were used in agriculture and irrigation but are now increasingly used for drinking water and sewage applications. The boom in housing, construction and infrastructure sectors would ensure growth momentum for PVC pipes.

HDPE pipes segment is an upcoming growth area with applications in telecom ducting, water supply, irrigation, fuel gas distribution, etc. The company has been manufacturing hi-tech HDPE pipe plants which has significant growth potential in India.

Flexible packaging industry has been growing at around 18% with focus on Multi-Layer Blown Films (MLF). Applications in lamination, milk and edible oil packing currently contribute 85% of the total market and the boom in organized retailing coupled with rural market penetration is fuelling the demand for MLF.

2. OPPORTUNITIES AND THREATS :

Recognising Company's capabilities in building global products at competitive costs, the range of plants being exported is steadily increasing. During the financial year 2007-08, the Company has exported its plant to 36 Countries.

Your Company has been awarded with certificate of Export Excellence by the Engineering Export Promotion Council, India for six times from financial year 1995-96. As recognition of sustained and excellent export performance, Government of India has accorded "STAR EXPORT HOUSE" status to the Company. Exports of the Company during the year under review were **Rs. 54.95 Crores** which is about **37.70%** of the Annual Sales Turnover.

Technological obsolescence, Market conditions, growing competition including imports are considered to be the threats.

3. SEGMENT-WISE PERFORMANCE :

Your Company is operating only in one segment i.e. Plastic Extrusion Machinery and Allied Equipments.

4. OUTLOOK :

Your Company's business being global in nature, the outlook for margins and profitability also depends upon overall global economic outlook and demand supply scenario.

The Company's in-house R&D having decades of engineering experience and advanced designing software has enabled it to regularly introduce latest products.

The continuous inflow of latest technology is available from the Technical Collaborator Battenfeld Extrusionstechnik GmbH, Germany and American Maplan Corporation, USA for manufacturing wider range of extrusion lines. In-house R&D with their support and engineering experience has developed more than 30 new models of plants during the financial year 2007-08 and about 20 new models of plants are under development.

Customer relationship is very strong resulting into nearly cent percent repeat business. At the same time, there is no excessive dependence on any single customer.

India has the potential to become a sourcing base for machineries, critical components, R&D services and after sales services for global plastic machinery industry and the Company is well placed to capitalize on such an opportunity.

Considering its leadership, large potential in domestic as well as export markets and continuous technological innovation, the Company is confident of recording an even better performance going forward.

5. RISKS AND CONCERNS :

Technology obsolescence, market conditions, growing competition including imports are major risks perceived by the Company that may have adverse effect on Company's business and its margin in future.

During the financial year 2007-08, the Company participated in national and international exhibitions viz. Plastivision-2007, PPP Pakistan Exhibition-2007, ZAK Trade Fair & Exhibition, K-2007 and Bangladesh-2008. The Company made an outstanding impression at such exhibitions and received tremendous response and enquiry from the prospective customers.
