MANAGEMENT DISCUSSION AND ANALYSIS REPORT:

a. Industry Structure And Developments:

Implementation of major irrigation projects, setting up of special economic zones, National and State high ways, housing projects etc has caused to increase in demand further for cement for the year 2008-09. Due to demand supply gap the prices are expected to improve further.

Cement as well as Sugar industries in India are fragmented and scattered throughout the country and have been experiencing consolidations and achieving considerable growth rates and improved price realizations.

Sugar being an agro-based industry needs good irrigation facilities. Irrigation facilities in the factory Zone has suffered due to proposed lining work of Wyra canals last year and that is likely to hamper sugar cane production in the coming seasons. These apart, continuous efforts are also being made to offer remunerative prices to farmers to make them switch back to sugar cane farming. As far as Power operations are concerned, the drop in cane sugar crushing is adversely affect the availability of bagasse which is the primary fuel used for production of power.

KAKATIYA CEMENT SUGAR & INDUSTRIES LIMITED

Segment-wise or product-wise performance has already been furnished elsewhere in this Report.

The Cement, Sugar and Power industries being core industries, there is no risk of product obsolescence nor steep fall in demand by way of product substitution or otherwise and therefore, your Directors do not foresee any major risks and concerns, in the near future except as discussed elsewhere in this Report.

f. Internal control systems and their adequacy:

The Company has adequate internal control system. Apart from this, the Company also has independent internal auditors, who conduct periodical audit and their report is taken into account by the Audit Committee for its review and suggest remedial actions wherever required.
