## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **ECONOMIC OVERVIEW:**

The world economy is moving into a slower growth phase principally due to the problems faced by the European economy and bleak prospects of US economy. This has also slowed down Chinese and Indian Economy. In this situation, it was expected that the commodity prices may remain at lower level for longer period. Commodity prices came down to some extent. But, recently, Company is seeing reverse trend especially in the price of Crude Oil and Commodity Plastics.

From the low level reached in the market, fluctuation in the prices of Commodity plastics was between USD 50 to 100 per ton in the last 2 to 3 weeks. Indian economy is further adversely affected due to non – decisiveness of Centre and State Governments on various pending issues which may push the GDP growth to a lower level of around 6.5% during the year 2012-13.

### **Indian Economy & Industry Scenario**

Indian economy continued its growth story and performed well on all the fronts. The Growth estimates and measures to achieve it by the Government are also with positive frame of mind and are with business friendly attitude. However, the current year does not seem to be encouraging for your company, mainly due to high inflation and series of interest rates hike. Moreover, the question of price stability in polymer market across India is uncertain.

### **Industry's structure and developments**

Plastics are fast growing Industry in India with a vast export potential. The Industry contributes significantly to the direct and indirect taxes to the Government of India. It also has a vast potential to generate employment in the country. It is expected that the Industry will continue to grow in future and contribute to the over all development of the country.

The company's polymer compounds business is directly related to the fortunes of cable industry/ packaging industry / footwear industry. If there is demand push in these segments of Indian economy, the top line and bottom line of the Company will significantly increase.

### **Opportunities and Threats**

The Board of the Directors is considering several action plans to grab the opportunities in order to augment a revival plan of the Company. The Management has undertaken a detailed SWOT analysis to find out appropriate growth plans to identify the weaknesses and threats.

### **Future Outlook of the Company**

The performance of the Company in the financial year 2011-12 is not satisfactory enough. The directors are planning to undertake setting up of new projects and consequent arrangement of finance from banks / financial institutions to make the company viable.

### **Risk Management**

Based on the operations of the Company, new risks, if any, are identified and steps are taken to mitigate the same. At Kalpena Plastiks Ltd, management ensures that risks are adequately measured, estimated and controlled to enhance shareholders value.

### **Internal Control System and their adequacy**

The Company believes that its internal control system and procedures are commensurate with its size and provides, among others, a reasonable assurance that transactions are executed with Management
