4. Write back of Sales Tax and Loan	2787.59	5326.33
5. Loss carried to Balance Sheet	(18,412.08)	(19,635.17)

2.0 PRODUCTION

Capacity utilization in Clinker and Cement improved to 74% and 60% respectively during the year compared to 65% and 54% achieved last year. However, delay in completion of rehabilitation of machineries coupled with unstable power supply hindered the plant operations. Stoppages also had to be taken for lining change in the Kiln and installation of new rollers in the Raw Mill in place of the old Rollers.

3.0 FINANCIAL PERFORMANCE

The Financial Year ending March, 2009 was a period of marked instability and financial turmoil on a global scale. At home, inflation peaked to 13% only to fall below 1%. Crude oil touched a high of USD 147 per barrel which affected the prices of Packing Materials and other inputs.

While All India cement production maintained a growth of 8%, growth in cement consumption was marginally lower at 8% as against 10% in 2007-08. Around 14 million tonnes of additional capacity was added during the year, representing a growth of 15% over last year. In view of the pressure on cement prices due to capacity built up and incommensurate demand on account of slowdown in real estate activities, Capacity utilization by the Cement Industry came down from 94% to 88%.

Average realization of the Company during the year was lower as compared to the same during the previous year. Some improvement, was however visible only in the 4th quarter of the year. In spite of 16% growth in turnover,

Company incurred net loss due to inflationary impact on costs and additional provision for Excise duty in respect of previous year. Considering the excise duty amount of Rs. 316.05 lacs paid during the year for the previous year, the previous year's adjusted EBITDA would be Rs. 305.94 lacs. The current year's EBITDA of Rs. 425.61 lacs has shown a marginal improvement.

4.0 FINANCES

The company is making continuous efforts to improve its operations. It installed new set of imported Rollers in Raw Grinding section and few other critical equipments in other sections at a cost of Rs. 14 crores approx. The remaining installation of New Rollers in the Clinker Grinding section and replacement and repair of other equipments shall be undertaken in the current year. The orders for such Rollers / Equipments have already been placed. With these installations, we are confident that the plant should be in a position to achieve higher production levels.

5.0 DIVIDENDS

The Directors regret their inability to recommend any dividend in view of the present position of the Company.
