Management Discussions & Analysis

Operations

The overall total sales turnover of your company for the period under review stood at Rs 4269.64 Lacs as compared to previous year Rs 6595.80 Lacs, recording a decline in turnover by 35.26 %. The production of sugar stood at 1.78 Lac quintals in 2009-10 as against 1.73 lac quintals in last year . The company crushed 20.72 Lac Quintals of Sugar Cane during the year as against 19.34 lac quintals in previous year.

Operational Performance

Particulars	Sugar Season	
	2009-2010	2008-2009
Commencement of the crushing season	05.12.2009	21.11.2008
Closing of Crushing Season	10.03.2010	12.02.2009
Cane Crushed (Lac Qntls.)	20.72	19.34
Recovery (percent)	8.54	8.66
Sugar Production (Lac Qntsl.)	1.78	1.73

The Company continues to suffer on account of inadequate availability of sugarcane.

Dividend

In view of the loss incurred during the current year and brought forward losses, your directors do not recommend any dividend for the current year.

Rehabilitation Scheme

The Company is a sick industrial company within the meaning of section 3 (1) (o) of the Sick Industrial Companies (Special Provisions) Act, 1985.

Hon'ble Board for Industrial and Financial Reconstruction (BIFR) had approved Rehabilitation Scheme vide their order dated 1st February, 2008 effective from 08.01.2008.

The Company has no outstanding term loans from banks/Fls. However, the reliefs and concession as envisaged under the scheme, inter alia, from State Government of U.P. and Uttaranchal are not being implemented in totality by the respective State Governments. The company hope that the same are allowed by the respective State Governments in terms of direction by Hon'ble BIFR.

Finance

The cash flow remained under pressure because of cash losses continuously incurred by the Company through out the year and inadequate working capital availability. Sugar sale realization also started declining from February 10 onwards and went down to even cost of production.

Your directors are hope full that the Company will certainly come out of the present phase and shall be able to make positive net worth in the next coming years.

The Company has not accepted any deposit from the public.

Industry Outlook

Sugar Industry is highly regulated industry in India. Government of India initiated reform process to decontrol the industry. The Decontrol of Sugar Industry is serious discussion now.

During the year, Imports of White/Raw sugar was allowed by the Government at zero import duty and without any export obligation.

During the year sugar production has been estimated at 19.00 million tones against 14.5 million tones in 2008-09 by Indian Sugar Mills Association. Country is expect to have closing stock of 6 million tones against opening stock of 4.4 million tones.

Sugar Price took a sharp correction after achieving peak in early part of year. The sugar prices went down to cost of production.

During the year, pricing of sugar cane continues to be vexatious issue. Despite the moderate increase in the SAP for the year 2009-10, cane cost per MT of Sugar in the State is higher than the current realization in the domestic market.

There has been a drastic increase in the state advised price of sugar cane during the year under report as compared to previous year. The State Government announced SAP at Rs 197.00 per quintal for early variety and Rs 192.00 for general verity as against Rs. 148.00 for early variety and Rs 143 for general verity of cane during the year 2008-09. Though the sugar selling process were also increased during early part of the year and there after the free sugar prices went down the cost of production of sugar, resulting in loss to the company.

Future prospects of sugar industry looks reasonably good next year. ISMA has projected sugar production of 23 million tones. However, the raw material cost is expected to be low as compared to this year resulting in positive margin from sugar operations

Internal Control System and their Adequacy

The company has proper and effective internal control system commensurate with size and scale of business to ensure that all controls, procedures and policies of are adhered to.

Risks and Concerns

1. The Sugar industry is cyclical industry and its' performance is subject to climatic conditions like timely rainfall. The industry has been affected by drought and irregular rain on various occasions

KASHIPUR SUGAR MILLS LIMITED

- The Central Government/State Government fixes the raw material cost of cane without referring it to prevailing sugar prices.
- The sugar industry has to supply 10% of its production to Central Government as levy Quota at the predetermined prices.
- Central Government may allow import of white/raw sugar of concessional rates of import duties, which will affect the sugar realization in domestic market.

Directors

Sri Sharad Sharma was appointed as additional Director by the Board of Directors the Company in its meeting held on 29.11.2010.

Sri Sharma has the extensive experience in corporate affairs and holding director ship in various companies.
