DIRECTOR'S REPORT**Dear Shareholders,**

The Directors hereby present the 21st Annual Report together with the audited statement of account of the Company for the year ended on 31st March 2001.

TEXTILE INDUSTRY

The recessionary trend in the economy continued during the year also. The Textile Industry witnessed the year of 2000-2001 as a worst year ever since in the last 30 year's of history of Textile Industry and this condition is worsening day by day. As per the Govt. statistics the number of Textile Mills closed down at end of March 1999 were at the number of 313 and this went to 387 by 31st March 2001, which comprised of 265 spinning units and 122 composite mills. Moreover, 40% of the total power-looms were closed down resulting into excess supply of yarn over demand. The closer of the aforesaid textile mill of 387 units and 40% power looms resulted into reduction in capacity of textile industry by 94.32 lacs Spindles, 47022 Rotors and 69270 Power Looms. Besides this, 122 Govt. NTC Mills are in the last breathing condition and some are working with lower capacity utilization of hardly 15% to 35%. The unemployed problems has further scaled up by adding 31.46 lacs unemployed workers due to closer and bad condition of the textile industries. Though the Central Govt. has launched textile technology upgradation scheme earmarking a fund of Rs. 25000 crores at concessional interest rate. there is no response from the existing textile mills due to deficiency in demand, higher cost of production, mainly contributed by power input and duties and also high capital cost.

The basic object of setting up your Company was to cater the needs of yarn of the local chaddar and towel manufacturers. With this object your Company had successfully implemented the project and supplied 100% production of the Company to the aforesaid manufacturers for last 17 years. As the scenario of the local market has drastically changed due closer of 75% local power looms and most of the remaining power loom owners are financially in bad shape, your Company is therefore bound to change it's marketing strategy by searching new market for Company's product. Accordingly the Company is now supplying it's product in new markets other than local with change in product-mix in order to fulfill the needs of this new markets and expected favourable results.

During the year under review the Company achieved turnover of Rs. 2348.95 lacs as against Rs. 2164.01 lacs relating to the previous year in the yarn spinning division. The reasons of loss for the year under review of Rs. 153.93 lacs against Rs. 139.07 lacs for the previous year were the same as in the preceding year, viz. general deficiency in demand, high cost of power and raw material, higher incidence of taxes and duties, expectation of high credit from the market resulting into higher interest burden and continued slow down in economy. Based on the latest statement of the Reserve Bank of India admitting that "the industrial outlook continued to be uncertain and cause for considerable concern". the position is likely to continue to remain the same during the current year and as reflected by the market conditions and industrial climate of the first quarter.

The performense of the hotel division for the current is indicative of further improving results.
