REVIEW OF OPERATIONS

FERTILIZER & CHEMICALS DIVISION

The year 2019-20 also fared well for the Company. The Company was able to produce and sell higher quantities of Fertilizer and substantially high quantity of Acid.

The year 2019-20 saw a very good monsoon which was initially lagging but picked up in the later months and finally ended with an excess of 10% over the long range average. This coupled with the strong and continuous brand building by the Company saw an improved performance in 2019-20.

The GOI agreed to keep the subsidy for the SSP sector separately earmarked within the overall Phosphates and Potassium segment. This did improve the liquidity in the SSP sector and also helped improve the performance.

During the year, the turnover of your Company has increased from Rs. 37,337.78 lacs for the year 2018-19 to Rs. 43,937.95 lacs for the year 2019-20, the operating income has increased from Rs.4,334.17 lacs in 2018-19 to Rs.4,817.91 lacs in 2019-20, and the cash profit has increased from Rs.2,132.91 lacs to Rs.3,007.44 lacs in the respective periods, while the net profit after tax has increased from Rs. 789.74 lacs to Rs.1,508.05 lacs.

The Company has produced 4,36,181 MT (previous year 3,18,554 MT) Single Super Phosphate and 2,13,514 MT (previous year 1,80,443 MT) Sulphuric Acid and sold 4,00,796 MT (previous year 3,03,679 MT) & 1,36,363 MT (previous year 1,40,329 MT) respectively.

The Company is trying to diversify its portfolio and has initiated import of NPK fertilizers in a small way. The Company has Imported 10931 MT NPK Fertilizers (previous year NIL) and sold 5315 MT during the year (previous year 7,576 MT). The Company has also added 'value added' fortified fertilizers in its product range. Both the above products launched by the Company have been well accepted by the farmers.

The Company is continuing its efforts for optimizing its current assets to leverage sales on the one hand and diversifying into new geographical markets on the other. Focus is being laid on producing more value added fortified fertilizers, to improve the product portfolio.

The raw material prices of sulphur have decreased and are now constant, however the prices of rock phosphate have increased mainly on account of depreciation of the rupee. To keep the end prices of fertilizers to the farmers within reasonable limits, the Government has more or less maintained the Nutrient Based Subsidy rates with a slight increase to Rs.2826/- from Rs.2734/-per MT for the year 2019-20. The subsidy has now been decreased to Rs 2643 per MT for the year 2020-21.

The pandemic of Covid-19, didn't affect KhaiTan Chemicals and Fertilizers Limited, to extent that it could have since the movement and production of fertilizer was not restricted by the Central Government during the lockdown, especially as Fertilizer is covered under the Essential Commodities Act, 1955 and is crucial for farm produce.

There was some impact due to local factors like availability of packing labour, declaration of containment zones in factory areas and nearby areas in some plants, delay in availability of service engineers and spare parts in the event of breakdown. However despite these factors the Company could perform reasonably well in the first quarter of the current financial year while taking full precautions for the safety of the employees and following the protocol laid down by the Government.

Going forward it appears the Government is keen to revive the economy and there are little chances of further lockdown. Also, Fertilizer being covered under essential commodities, it is not likely to be restricted, if at all the GOI reviews its policy for further lockdown. Also with several countries announcing effective cures for Covid-19 virus, and vaccines expected by the year end, we feel there may not be a further clampdown of the economy. However the fiscal revenues of the government have reduced substantially due to countrywide lockdown and relief packages for different segments of society and industry segments. This shall impact the ability of the GOI to reimburse subsidy and negatively impact the industry.

In the coming year 2020-21, the long range forecast of monsoons is about normal. This coupled with the rise in the farm produce in the Kharif and Rabi has given a good disposable income in the hands of the farmers. It also expected that the acreage under cultivation may increase in the current year. Overall, it is expected that there will be good demand of fertilizer in 2020-21.

Another important development in the Industry has been increased focus of the Ministry of Fertilizers towards quality compliance in the SSP Industry. The movement is already gaining momentum and expected to yield good results. With the improvement in the overall quality of the Industry the organized sector and the Industry as a whole is expected to do well.

SOYA/AGRI DIVISION

The Soya Industry is passing through a tough phase with widespread activities of speculation by Industry players.

The Company has reduced its activities in this segment to a large extent alongwith total control on fixed expenses.

DIVIDEND

The Board of Directors is pleased to recommend final dividend of Re. 0.20 per equity share (face value of Re. 1/- per share) for the financial year 2019-2020, previous year Re.0.05 per equity share.
