Dear Shareholders,

FY21 ended with hope that the COVID-19 pandemic was finally behind us. However, the second wave of the pandemic affected the lives and jobs of millions of Indians in the 1st quarter of FY22. Through this phase, team KSL worked relentlessly to ensure the health and safety of our people and their families. Our learnings from the first wave enabled us to be nimble and alter 'ways of working' to ensure business continuity and rapid return to normalcy. Despite the changing world order, driven primarily by the pandemic and unstable geopolitical situation, I am very pleased to inform that your company continues to grow from strength to strength - closing the year with the best-ever profitability in FY22 when compared to the last ten years.

We live in very interesting times. Equity markets remain on a secular uptrend as India's economy gathers momentum following its recovery from the pandemic induced challenges that rocked global financial markets. There are headwinds, such as the projected hardening of interest rates around the world following the unwinding of monetary stimuli in advanced economies, which has resulted in the consistent drawdown by foreign investors from Indian equity markets over the past few quarters. Despite these events, our equity markets have remained resilient and have shown significant strength in the wake of the COVID-19 pandemic, its continuing trajectory, geopolitical tensions and rising energy prices. In the longer term, many surplus economies regard India as the most sought-after investment destination due to its inherent qualities and the country's strong, decisive and forward-looking governance framework.

In March 2022, BSE's cumulative market capitalisation of stocks listed on the exchange reached USD 3 trillion for the first time ever. There were three key pillars to this growth journey:

- i. The entry of a large wave of tech-savvy new investors into the market. On an average, the country added about 2.9 million demat accounts every month during FY22, a substantial 2.4x jump from 1.2 million average monthly additions in FY21. Most of these accounts were sourced by digital brokers, who have demonstrated their ability to penetrate deeper into the country using digital highways.
- ii. The economy itself has been undergoing massive transformation, with most consumer-related services and products going online, thereby expanding markets and creating immense growth opportunities.
- iii. The diminishing returns from traditional risk-free assets have established equities as a prime investment choice, particularly among new-age investors who have taken cognisance of the fact that equities have grown at 14.7% CAGR over the past 20 years.

The advent of digital brokers is rapidly making the brick-and-mortar branch-led model less relevant, with smartphones emerging as go-to devices for participating in the capital markets and opening up phenomenal growth opportunities for digital-first intermediaries. In addition, India's digital native millennials are now ushering in a rapid shift in the retail investment psyche, with Gen Z following suit. Both groups are fast emerging as the next growth engine for investment funds and the broader economy as they search for newer investment tools and platforms that are intuitive and offer access to diverse asset classes such as AIFs, Mutual funds, etc. Digital broking platforms, with their frictionless service offerings, flat fee structures and extremely intuitive interfaces, are helping the average individual become a smart investor. Approximately 69% of NSE-active clients were added by the top five digital brokers in FY22. Their share in NSE's active client base has risen to approximately 58% in FY22. The journey for digital brokers has just begun, with a huge untapped market waiting to be harnessed.

PREPARED FOR TOMORROW

We envision strong growth over the next decade, as equity percolation increases, and the investor fabric matures. The roll out of 5G services will help further improve connectivity in tier II, III and beyond cities. A recent report by Deloitte indicates that the population of India is expected to possess one billion smartphones by 2026 – an increase of 33% above the 750 million currently in use. Of the incremental sales expected over this period, 5G will contribute 80% to devices that will be sold in the next five years. Deloitte's report also indicates that this growth is likely to be propelled by rural India, which is expected to grow 2.4x faster than urban India. Ultimately, the growth of the fintech sector, supported by the proliferation of internet and access to digital financial services, is inevitable. Ease of access, coupled with simplicity of the product, will allow us to reap the benefits of future growth. With improving macro dynamics, and a growing appetite for diversified financial products, we have worked during the year to gear ourselves up, to tap the opportunities listed above. With this, we will be better prepared to walk beside our clients on their wealth-creation journey over the next two to three decades. Last few years have seen the advent of a new set of young investors, with growth of mobile investing and Fintechs. Accessibility, transparency, speed and Robo-trading have become norms for the category and are driving incredible evolution. Our strategy to diversify our business model towards linear sources of earnings which will continue to show positive results. Capital Market business, which is our oldest and cash cow business, has achieved new high on various parameters and continues to benefit from industry consolidation led by knowledge driven digital offerings.

I wish to thank the regulatory authorities for the continued proactive steps taken to protect the interests of retail investors and making Indian equities markets more accessible. The regulatory changes implemented are directed towards the same, thus resulting in a significant increase in investor confidence.

Our long-term outlook for the Indian economy continues to remain bullish, driven by the changing geo-political scenario and the proactive steps taken by the Government to drive manufacturing in India. KSL's legacy and strong platform coupled with the new initiatives gives us confidence to scale new heights and remain a relevant player in the country. Our employees continue to be the greatest strength of KSL. As always, they have worked with extraordinary commitment during the last year. I express my gratitude to all our employees and their families for their sustained support during these tough times. I would like to thank the Board for their guidance and support. I would also like to thank our customers, bankers, rating agencies and business partners for their continued trust and patronage. On behalf of the Board of Directors of KSL, I wish to thank you all for your continued trust, confidence, and support.
