KHODAY INDIA LIMITED

ANNEXURE TO DIRECTORS' REPORT MANAGEMENT DISCUSSION AND ANALYSIS

- 1. Industry structure and developments:** The alcoholic beverages Industry in India is made up of Indian Made Foreign Liquor (IMFL), Beer, Wine, Country Liquor and imported alcoholic beverages. The IMFL segment of the Industry recorded a growth of about 9% during the year and your Company has kept pace with this rate of growth. The Company's premium brands of IMFL such as "Peterscot" & "Red Knight Select" and "Red Knight Reserve" brands of whisky enjoy market share of about 2%. The product distribution in most states is managed through the respective State Beverages Corporation.
- 2. Opportunities and threats:** Though the alcoholic beverages Industry in general was by and large spared of the slow down following global recession, the recovery in various sectors of Economy has had a positive impact on the growth of the Industry. The projected GDP growth of 8.5% for 2010-11 provides the right impetus for the continued growth momentum of alcoholic beverages industry. However, the continuing increase in taxes which constitute nearly 2/3rds of shelf price of the premium brands, the absence of uniform rates of taxes and the diverse policies of the state governments on marketing and the restriction on advertising in both the print and electronic media are the major dampeners for higher rates of growth. The consistent reduction in custom duties on imported spirits resulting in easy availability of multinational brands constitutes another challenge for the Company.
- 3. Segment wise/ product wise performance:** The revenue for the Company was generated through business operations in the product segments of Liquor, Glass & "Others" comprising miscellaneous activities. The Liquor segment clocked a revenue of Rs.290.55 Crores during the year registering an increase of Rs. 75.40 Crores over the previous year. The revenue generated from the Glass segment is Rs.22.63 Crores, which represents a decrease of about 8% year on year. Similarly, the miscellaneous operations ("Others" segment) registered a revenue of Rs.1.94 Crores accounting for a decrease of Rs.0.13 Crores year on year.
- 4. Outlook:** The IMFL segment of the industry in particular is expected to register a growth of about 10% and your Company has plans to improve sales volumes during 2010-11 by around 15% year on year.

Business risks and mitigatory efforts: The business risks for the Company could be broadly classified as follows:

- (i) Raw material procurement :- the risk of non-availability of extra neutral alcohol in adequate quantities is managed through forward contracts for uninterrupted supplies.
- (ii) Timely and adequate availability of working capital:- Being in the non-priority sector under the Government policy, the Company faces the twin risk of timely availability of funds in adequate measure as also the high the cost of borrowing from banks, which are managed through a close monitoring of the working capital needs and timely borrowing through hard negotiations with the lenders by the top management on a regular basis.
- (iii) Product prices and competition :- The Company operates in a highly competitive business environment characterized by availability of various products both domestically produced and imported, at different price points. The risk from competitive product pricing is managed through adherence to high quality standards and product differentiation
