38th Annual Report 2012-13

Enriching Lives

Decades of positive change

Positive Change!

It has been our reason to be, for decades now. And, it is this thought that has been the inspiration behind a gazillion smiles, across the globe.

Through critical engineering solutions across industries; be it the water that quenches thirst of millions across regions or keeps mega power plants cool, or the engines that power countless applications, generating sets that provide standby power from telecom to defence and the refrigeration that saves millions of tonnes of food stock - Kirloskar has been working reliably and efficiently to spread and earn more and more smiles.

Your company has brought about a positive change by:

- Developing the 1st indigenously designed 1 MW Planetary Gearbox for Windmills Renewable Energy
- Saving valuable foreign exchange by supplying indigenously designed hydrocarbon based Refrigeration and Gas Compression packages for the Oil & Gas Industry
- Pioneering the use of Ammonia as a refrigerant in India - Zero ODP and Zero GWP
- Focusing on CSR activities by way of inculcating Environmental awareness in children

OPERATIONS

Uncertainty in the Indian economy contributed to a drop in your Company's revenues in the year 2012-13. The market sentiment was affected due to rise in the foreign exchange rate, inflation and high interest rates. The rise in crude oil prices also contributed to this uncertainty in India.

The net revenue of your Company for the year ended review was 5,488 million against Rs.6,666 million of last year.

The revenue of the Compression Segment was Rs. 4,484 million as against Rs.5,781 million in 2011-12.

The Compression Segment was affected mainly due to very low investments in the Oil and Gas Sector.

Capital expenditure for expansion/up-gradation of refineries was also very low and this affected our business of Refrigeration and Gas Compression Systems.

The CNG segment did not grow as anticipated due to various infrastructural and gas availability issues.

Revenue of the Transmission segment was Rs. 1,005 million as against Rs. 885 million of the last year.

In spite of the manufacturing sector not growing in the last year, your Company has generally maintained its profitability in the year.

This was the result of the many cost reduction measures undertaken by your company. This included value engineering products, re-engineering of our processes, improving efficiencies and reducing throughput time.

Your Company launched a WoW (War on Waste) initiative last year and employees consciously contributed to eliminating/ reducing all kinds of waste.

ENERGY CONSERVATION

In spite of substantial rise in power tariff and Oil prices, we have been able to contain our costs due to various energy conservation projects that we undertook last year.

Our efforts in energy conservation were recognised by the Institute of Engineers Pune, Local Centre, who awarded us with DSK Energy Award for Outstanding Contribution in Energy Sector.

**DIVIDEND**

The Board of Directors have recommended a dividend of Rs. 12/- (120%) per equity share for the year ended March 31, 2013. In the last year a similar dividend of Rs. 12/- (120%) per equity share was paid.

FIXED DEPOSIT

As of March 31, 2013 there are no Fixed Deposits outstanding nor unclaimed.

PROSPECTS

The manufacturing sector witnessed a decline in the last couple of years. There are indications that the business sentiment is improving and your Company is meticulously keeping track of the developments. While this will definitely help in order booking, it will help in your company's revenues from 2014-15 onwards.

Revenues of the Transmission products have grown by 20% over the last year with a marked improvement in profitability. We expect this Division to maintain its focus on profitability this year too.

Your company has taken up exports of Hydrocarbon Refrigeration and Compression Systems as a key growth area and in this context, I am glad to inform you that your company has now been approved by many Oil & Gas Companies in the Middle-East and South-East Asia as a supplier of these systems. These will help in growing revenues in the coming years.

Our efforts to get ourselves approved in many more Oil & Gas Companies in these regions will continue in this year too and you should be able to see your Company expanding this products in the coming years.

During the year end review, your company has manufactured one RoadRailer Rake which has been inspected and cleared by RDSO and is now awaiting Emergency Brake Distance Test (EBD).
