Forward looking statement

In this Annual Report, we have disclosed forward-looking information to enable Stake Holders to comprehend our prospects and take Relative decisions. This report and other statements - written and oral - that we periodically make, contain forward-looking statements that set out anticipated results based on the management's plans and assumptions. We have tried wherever possible to identify such statements by using words such as 'anticipate', 'estimate', 'expects', 'projects', 'intends', 'plans', 'believes', and words of similar substance in connection with any discussion of future performance. We cannot guarantee that these forward-looking statements will be realised, although we believe we have been prudent in assumptions. The achievements of results are subject to risks, uncertainties and even inaccurate assumptions. Should known or unknown risks or uncertainties materialise, or should underlying assumptions prove inaccurate, actual results could vary materially from those anticipated, estimated, or projected. Readers should keep this in mind. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Product Segments

Kisan Mouldings Limited (KML) has built a plethora of products in the plastic piping and irrigation industry and is positioned to gain traction in the market thereby bringing in with it stronger sales, higher growth, improved customer services and higher profitability. The products address the needs of various customers spanning from architects, builder, farmers and individuals.

The refresh in the existing product line and the introduction of new products are uniquely placed to cater to different target markets. This gives KML the confidence to be aggressive in re-gaining market share. We are confident of the fact with the investments made in technical know-how and the product line will reap rich dividends over the coming years.

Our Product basket consists of the following:

1. **KML CLASSIC CPVC Plumbing System:** The Chlorinated Polyvinyl Chloride pipe is manufactured at the plant which is located in Boisar, Maharashtra. The usage of these products is mainly Residential, Commercial Buildings, Hotels, Educational Institutions and Swimming Pools whose application is used to distribute water of both hot and cold temperatures. The products are manufactured using high quality resin and technology from Japan. The pipes are free from corrosion and work well in conditions where the soil or atmospheric conditions are at an extreme. The CPVC pipes are usually known to have longer life expectancy (50 years) in comparison to the galvanized iron pipes.
2. **FREE flow UPVC plumbing pipes (ASTM):** The Unplasticized Polyvinyl Chloride (UPVC) pipes are manufactured in the state-of-the-art plants based in Tarapur location. These pipes are used in multifarious application like any other CPVC product. The pipes are mainly installed for transporting drinking water without causing any changes to the water properties. The pipes manufactured by KML are chemical and corrosion resistant and are durable and stronger. The pipes are easy to install, low in maintenance and high life expectancy making it a cost effective solution for the user.

3. **Soil, Waste & Rain water system (S.W.R):** These pipes find their usage in drainage & sewerage applications and are more superior and durable than the conventional drainage systems.

These pipes are available in the range of Permafit and Classic with diameters ranging from 40mm to 200mm. These pipes are light in weight and cost effective. The pipes of such kind do not require maintenance or inspection which is why its performance is always unblemished. The SWR pipes are also less prone to damage during transit and the pipes are corrosion and rodent resistant.

4. **Irrigation systems:** Irrigation is an important aspect of farming and agriculture in India. It means supplying water to regions/areas which are dry and mainly will be used for cultivation. India being an agrarian economy, irrigation continues to be the backbone. In order to facilitate irrigation, KML manufactures products which are mainly drip and sprinkle irrigation. The irrigation products enable to save water consumption by 50-70%. It has also shown significant increase in the yield of the crop.

5. **Solvents:** The solvent cements are used mainly for joining the pipes and fitting. These solvents vary for the different kind of pipes i.e. UPVC, CPVC, HDPE and are available in plastic pet bottles, cans, carboys and barrels.
