MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Kothari Industrial Corporation Limited is engaged in the core business of manufacturing and trading of Fertilizers and trading of Micro Nutrients including Straight Fertilizers. The key issues relating to this line of activity are discussed below:-

Indian Economy which is primarily dependent on agriculture besides industrial sector, records a substantial growth in the economy's performance. The growth of the agricultural sector is based on many factors including onset of the monsoon over the Indian Sub-continent. A good monsoon raises the hopes of the farmers and in turn the prospects of our business. We in turn deliver fertilizers for increased output of the agricultural sector.

Our Company's products being branded ones enjoy a market especially in the southern parts of India. The Company recorded a turn over of Rs.56.25 crores against the previous year turn over of Rs.24.00 crores, thereby registering a growth of 134.38% during the year under review.

Your Company continues to exercise good control over all costs on direct or indirect with a aim to register profits for the Company.

A team of Internal Auditors continue to visit all the branches of the Company on regular basis to ensure adherence to the established systems and procedures. The audit reports are reviewed by the Senior Management Committee at the head office and Audit Committee at its review meetings at frequent intervals.

Outlook

The introduction of the Nutrient Based Subsidy Scheme (NBS) by Ministry of Chemicals and Fertilisers, GOI w.e.f 1st May 2010 has heralded a new era in the Fertiliser Industry in India. The NBS

envisages a fixed subsidy per nutrient of "N", "P" or "K" and allowed Manufacturers and Importers to fix their own MRP. This is expected to remove the imbalances in nutrient applications in the fields and bring a level playing field for all Companies manufacturing Phosphatic fertilisers.

Despite an excess production capacity in the SSP Industry – 400 % more than average consumption, your company continued to have orders in excess of our Production capacities, thanks to a four decade strong brand, a committed sales team and an extensive network of dealers in South India.

Your Company hopes to take advantage of the above strong factors in its favour and looks at reaching the position of being the **second largest producer of SSP** in South India among 14 Manufacturers.

Your Company also has entered into Marketing tie ups with other SSP Manufacturers to sell SSP in the "Kothari's Horse Brand". This will help to establish our brand in places where it is economically unviable to service from our factory in Chennai.

Your company proposes to increase its share in the growing market of organic products and micro nutrients, by adding new products and expanding the markets.

As the scope for physical mixtures is gradually coming down, your company has entered into marketing tie ups with five large manufacturers of Granulated NPK Mixtures and hopes to invest in one NPK Granulation unit very soon.

Your company is also exploring the possibilities of a Manufacturing and Marketing tie up with a European Company for Growth promoters and Specialty Fertilisers.
