DIRECTORS' REPORT

To the Members

The Directors submit the Annual Report of the Company together with the audited statement of accounts for the year ended March 31, 2008.

1. Financial Performance

(Rs. in Lakhs)

Particulars	2007-2008	2006-2007
PBIDT	907.92	733.97
Interest	--	--
Profit after Interest	907.92	733.97
Depreciation & Goodwill	222.93	180.84
Profit after Depreciation & Goodwill	684.99	553.13
Fringe Benefit Tax & Provision for Taxation	66.23	1.26
Profit After Tax	618.76	551.87

2. Performance for the financial year 2007-08

The Company has achieved a turnover of Rs.10,080.26 Lakhs for the year ended March 31, 2008.

The plant adheres to excellent safety norms and conducts periodical audits, training programme on chemical and safety exercises. The entire plant area is covered with green belt and additional efforts for improving the same will continue in the coming years. The plant adopts zero effluent concept.

Today, our Plant has been operating with both Quality Management System (ISO 9001:2000) and Environmental Management System (ISO 14001: 2004) after a surveillance audit was conducted by M/s.Det Norske Veritas, Germany.

3. Dividend

The Directors do not recommend a dividend for this year, in view of the carried forward accumulated losses.

4. Plant Capacity

The Plant enhanced its capacity from 11000 TPA to 22000 TPA to augment the growing demand for special grades PIB around the world. The Company continued to expand its presence in the international market through increased exports during the current financial year.

5. Disclosure under Section 217(2A) and 217(1)(e) of the Companies Act, 1956

As required under the provision of sub-section (2A) of Section 217 of the Companies Act, 1956 read with the Companies (Particulars of Employees) Rules, 1975 as amended, particulars of employees are required to be set out in the annexure to the Directors' Report. However, as per provision of Section 219(1)(b)(iv) of the Companies Act, 1956, the report and the accounts are being sent to all the shareholders excluding the aforesaid information. Any shareholder desirous of obtaining the same may write to the Company Secretary.

Information in accordance with the provisions of Section 217(1)(e) of the Companies Act, 1956 read with the Companies (Disclosure of particulars in the report of Board of Directors) Rules, 1988 is furnished in Annexure 'I'

6. Public Deposit

The Company has not accepted any Public Deposit during the year and there was no outstanding deposit anytime during the year.

7. Directors

Mr. P.S.Balasubramaniam & Mr. G.Narayanaswamy, Directors, retire by rotation and being eligible offer themselves for re-appointment.

8. Director's Responsibility Statement

Pursuant to the requirement of Section 217(2AA) of the Companies Act, 1956, the Directors hereby confirm:

- i. that in the preparation of the annual accounts, the applicable accounting standards had been followed and there are no material departures;
- ii. that the directors had selected such accounting policies and applied them consistently and made judgment and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit or loss of the company for that period;
- iii. that the directors had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of Companies Act, 1956 for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities; and
- iv. that the directors had prepared the annual accounts on a going concern basis.

MANAGEMENT DISCUSSION AND ANALYSIS

Kothari Petrochemicals Limited (KPL) is the largest manufacturer of polyisobutene (PIB) in India. The company enjoys a strong market position in India with a rapidly growing brand across the globe that represents quality, customer responsiveness, dependability and a commitment to the environment. KPL's growth continues in the financial year 2007-2008, KPL expanded its capacity in Manali and doubled its production to 22,000 MT per annum in order to supply PIB worldwide.

Industry Structure and Development

KPL is a part of India's growing petrochemical industry. KPL utilizes liquefied petroleum gas (LPG) as its primary raw material, and produces PIB, which is mainly used in downstream petrochemical applications. KPL's PIB product line comprises of several molecular weight grades, each of which can be applied to a wide range of uses in chemical, rubber, plastics, paper petroleum and lube oil industries.

The PIB industry worldwide continues to expand to compensate for increasing demand, and is now dominated by a small number of large producers in various countries.

Outlook

Polybutene consumption is most influenced by the market for fuel and oil additives, which in turn, is a function of lubricant sales. Demand for PIB remains relatively constant, with primary drivers for growth arising from new applications of PIB in various industries. While demand for two-stroke engines is likely to decline across South Asia and Southeast Asia, other, more advanced industrial applications of PIB continue to drive the market demand for PIB across the world. The strongest growth in PIB demand is in Asia, a region in which KPL has grown as a trusted supplier to many large companies, such as Exxon Mobil, Infineum, Chevron, BP Castrol and Lubrizol. Despite continued raw material cost pressures arising from volatile crude oil prices, the list of advanced applications for PIB continues to grow. KPL is thus well positioned to supply the world market with international quality PIB, to meet this growing demand.

Opportunities

Rapid economic development throughout Asia continues to shift the demand curve upward across all grades of PIB. Due to our proximity to Asia, and the internationally accepted quality of our product line, KPL is well positioned to serve the rapidly growing Asian market.

Customers in India and abroad are demanding higher quality PIB for more advanced applications. To meet this demand, KPL has continuously been on the path to innovate and improve the quality of all grades of PIB.

As a result, KPL's quality is on par with European and Asian PIB suppliers, which translates to sales across all geographies and a wide range of industry segments.

KPL is committed to implementing advanced processes and methods to minimize cost of production and maximize production and process efficiencies. As a result, KPL has continued to produce PIB for customers in need even while our competitors reduce production due to volatile market conditions.

Threats

The petrochemicals industry is affected by demand for end-products. Because our business is dependent on the requirements of downstream end-product companies for our products, periods of downturn and over capacity may lead to reduced demand for our products. To mitigate such threats, KPL maintains a diversified portfolio of customers across geographies and product requirements.

The period of 2007-2008 witnessed a historically dramatic increase in crude prices, and in turn Liquefied Petroleum Gas (LPG) prices. Since KPL is heavily dependent upon LPG, sharp increases in raw material costs pose a threat for the company's ability to maintain profit. To reduce this threat, KPL continues to negotiate with all customers on price and volume to preserve profit despite volatility in raw material costs.

In international markets, KPL faces competition that provides high quality PIB at low prices due to economies of scale and market entrenchment. Price competition within India from international suppliers seeking market entry has also presented a threat through downward pressure on price realization. To lessen this threat, KPL continues to improve the quality of its product line to offer product at parity with international competitors, reduce our cost of production to provide flexibility in pricing while maintaining profit, and seek a wide range of customers in segments underserved by large international PIB suppliers, and thus, enjoy better realizations.

Despite efforts to mitigate foreign competitors' dumping product into India at prices well below cost of production, the threat still remains. Dumped PIB at deeply discounted prices results in lost revenue for KPL and its domestic competitors, and serves as a disruptive force in the Indian market. KPL is uniquely prepared to export larger quantities of PIB outside of India so that the adverse effects of such tactics would be mitigated.

Risks and Concerns

As KPL increases its exports, the company will become more exposed to potential volatility in foreign exchange. To mitigate this risk, KPL has established a Treasury function to actively manage potential transaction cost risks arising from foreign exchange.

KPL has recently increased its annual production capacity to 22,000 MT per annum. Risks of any expansion include: market saturation and less demand than forecasted and supply chain difficulties. As of now, the benefits brought about by such capacity expansion have been in line with KPL's expectations. KPL has established systems to evaluate and forecast market demand and supply chain requirements and refers to these forecasts and evaluations on a regular basis.

KPL procures raw materials from multiple sources whenever possible to ensure adequate supplies for volume production and to mitigate purchase concentration risk. To lower the risk of potential price increases, KPL seeks to establish long-term contracts with these suppliers. KPL also continues to look for additional sources of materials.

9. Internal Control Systems and their adequacy

KPL maintains an adequate internal control system that provides effectiveness and efficiency of operations, accuracy and reliability of financial reporting, compliance with applicable laws and regulations.

The Audit Committee of KPL comprises of qualified and Independent Directors which reviews the adequacy of internal controls on a periodic basis.

10. Human Resources / Industrial Relations

The total number of employees are at 93 and over 75% are professionally / technically qualified and experienced.

11. Corporate Governance

We believe that Corporate Governance is at the heart of Shareholder value creation. Our governance practices along with the Auditor's Certificate on its compliance are attached hereto as an Annexure to this report.

12. Re-appointment of Auditors

The Auditors, M/s.R.Subramanian and Company, Chartered Accountants, Chennai, retire at the Annual General Meeting and have confirmed their eligibility to accept Office, if re-appointed.

13. Acknowledgement

The Board acknowledges the co-operation and support extended by the Employees, consultants, suppliers, customers and all its business associates.

The Directors place on record their appreciation for the continued support and co-operation they have received from Financial Institutions, Banks, Central and State Governments.

On behalf of the Board
for **Kothari Petrochemicals Limited**

Place : Chennai
Date : July 28, 2008

B.H. Kothari
Chairman and Managing Director
