Less: Taxation	429.19	743.30
Profit After Tax	1194.90	1209.64

DIVIDEND

Your Directors are pleased to recommend the payment of dividend for the year ended 31st March 2012 at ₹ 1.25 per share. The proposed dividend absorbs ₹ 136.78 lacs for dividend and ₹ 22.19 lacs for Dividend Tax. As per Indian Income Tax Act, the dividend payable by the Company is Tax free in the hands of shareholders.

TRANSFER TO RESERVES

The Company proposes to transfer ₹ 100 lacs to the general reserve out of the amount available for appropriation and an amount of ₹ 935.93 lacs is proposed to be retained in the surplus in statement of Profit and Loss.

OPERATING RESULTS AND PROFITS

During the year under review the total revenue of the company has increased to ₹ 22393.39 lacs from ₹ 17595.30 lacs in the previous year registering an impressive growth of 27%. The profit after tax stood at ₹ 1194.90 lacs against ₹ 1209.64 lacs in the previous year. The net profit of the company has not increased proportionate to the revenues due to higher finance cost, increased provision for deferred tax liability and depreciation consequent to the major expansion embarked by your Hospital.

CORPORATE SOCIAL RESPONSIBILITIES

In its role as socially responsible corporate citizen, your company reaches out to the needy sections of the society in many ways. We have been continuously organizing various Continuous Medical Education Programmes (CME), medical camps which provides free medical care besides health awareness and education. During the year free consultation camp on endoscopic spine surgery, fertility care, cancer awareness programmes, free camp for diabetes were conducted.

FACILITY UPGRADATION AND EXPANSION

In order to add comfort to patients, significant renovation and upgradation was undertaken during this year. This will not only enhance the patient care but also facilitate achieving more operational efficiencies. Among others we have added 7 new operation theaters, Neonatal ICU, separate Cardio Thoracic Unit, Nuclear Medicine Dept., Medical ICU, Modernisation of Surgical ICU, Day Care centers for cancer and cardiac patients. During the year we have added 210 patient beds, an Isolation Ward, two Pharmacy outlets etc.

The expansion envisaged during the year 2007-08 was entirely completed in this current year except for some minor work. The total project spending was ₹ 269 crores against which we have borrowed a sum of ₹ 214 crores and the balance being from internal accruals.

INFECTION CONTROL AND ENVIRONMENT

Infection control is the discipline concerned with preventing nosocomial or healthcare associated infection in Hospitals. Your Hospital is giving special thrust to infection control and have established an Infection Control Committee to monitor and regulate infection at the Hospital. The improvement exhibited in the infection control indices shows encouraging results. The infection rates are well within the accepted standard level and favourably compares with similar well established hospitals in India.

TECHNOLOGY ABSORPTION

Your Hospital continues to believe in investing in cutting edge technology by bringing world class medical equipments and the latest facilities in the medical care.

PET CT : The Siemens Biograph -6, state of the art, whole body PET Scanner with a diagnostic 6 slice CT Scanner enables whole body staging of cancer in a single step. This revolutionary modality images the metabolic status of the cancer cells through a PET and structural changes with a contrast enhanced CT Scan thus making it a one stop imaging platform. Thus the need for multiple regional scans are eliminated, saving patient time and decreasing the time gap from diagnosis to initiation of appropriate treatment. A whole body PET-CT is currently the gold standard for initial staging, post treatment assessment and evaluation of recurrence in cancer.

SPECT : The Symbia T from Siemens, a dual headed variable angle gamma camera with a diagnostic CT enabling the highest image quality and resolution currently available in the world, reducing radiation exposure to the patient and faster scanning time are some of the features of this Gamma camera equipped with cutting edge technology. SPECT-CT of the skeletal system, cardiac perfusion imaging, cancer thyroid evaluation, neuro psychiatric functional and molecular imaging, renal function & GFR assessment etc. are done with high end precision and negligible inter observer variation, thus redefining the standard in functional imaging.

Your hospital has also recently added 3T MRI, PACS, Mammography and other equipments. Your hospital has added new medical facilities amounting to ₹ 3754.84 lacs during the current year under review.

CONSERVATION OF ENERGY

Your company has undertaken various measures in conserving energy and has installed Building Management System (BMS) to continuously monitor and control all Air Humidifying Units (AHUs) and the resultant power consumption.

Your hospital continuously reviews the energy generation and its consumption and ensures periodical maintenance of the plant to conserve energy. We have installed solar power lights and water heaters wherever possible.

LED lights and fixtures are introduced in a phased manner to reduce power consumption. Push type water taps are installed in the hospital premises to reduce water wastage.

Waste water is being recycled by Effluent Treatment Plant (ETP) and is being used wherever possible.

CARE RATING

CARE Rating has confirmed the financial credit rating of 'CARE BBB' (Triple B) for the revised long term facilities and 'CARE A3' (A Three) for short term facilities.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The growth in high income countries is going to be weak. Developing countries will have to search increasingly for growth within the developing world. Under these conditions prospects and growth rates that seems relatively easy to achieve during the first decade of this millennium may become much more difficult to attain in the second.

HEALTH CARE SCENARIO

The health care economy is generally resilient and is not impacted by recessions. Even though the world economy is weak, the health care industry has remained largely insulated.

The Indian healthcare industry is estimated to be valued at ₹ 2.8 trillion in size in Financial Year 2011, growing at a 5 year CAGR of 13.1% p.a. CARE Research estimates healthcare industry has the potential to almost double to ₹ 5.0 trillion over the next five years, implying a growth rate of 12% p.a. This will be mainly driven by rise in per capita spending on health care, change in demographic profile, transition in disease profile, increase in health insurance penetration and fast growing medical tourism market.

OUTLOOK AND FUTURE PROSPECTS

The health care sector in India is poised for rapid growth in the medium term. The Hospital has under gone NABH (National Accreditation Board for Hospitals and Healthcare Providers) accreditation process and is quite confident of getting it.

Our domain expertise coupled with the state of the art equipments and the quality of services have made the Hospital a leader. The demand for treatment from the domestic front is encouraging and continues to be robust. The Hospital is also planning to embark on attracting international patients in a big way.

A combination of demographic and economic factors is going to impact health care industry in India. Increase in population, shift in demographics, rise in disposable income, increase in incidence of lifestyle related diseases, rising literacy are the few drivers that propels the growth of health care industry.

COMPREHENSIVE CANCER CENTER

The Comprehensive Cancer Center was inaugurated by his Excellency Dr.K.Rosaiah, Governor of Tamil Nadu on 07.11.2011. The center is a world class facility with state of the art infrastructure providing the entire range of services including awareness, detection and treatment for different types of cancers. The center has a well knit team across radiation oncology, surgical oncology, medical oncology and nuclear medicine.

OPPORTUNITIES

Medical Tourism

Medical Tourism is a highly growing sector in India and is expected to experience an annual growth rate of 30%. Medical tourism is one of the foremost external drivers that fuel the growth of health care industry. The state of the art medical equipments, reputed health care professionals, quality nursing facilities, best in class treatment, low cost treatment etc. attracts foreign patients to look for treatment in India.

Rising Investments

Strong demand for hospital services in tier 2 and 3 cities is bound to fuel the growth of the health care sector in India. In recent years there have been considerable investments from domestic players, financial investors as well as private equity firms in the corporate health care sector.

Health Insurance

The nature of health problems are changing rapidly and the cost of the treatment is also increasing. The increase in organisation has led to higher incidence of life related diseases. Now more number of people in the urban and semi urban areas are opting for health insurance in view of the rising health care costs. The health insurance is one of the fastest growing segments in our country.

RISKS, CHALLENGES AND THREATS

Talent Pool

The Indian health care sector is one of the latest service providers and employs millions of work force. Shortage of doctors and skilled manpower like nurses, technicians is plaguing the health care industry.

The urban-rural divide, lack of adequate training to the health care workers, inadequate HR policies in the system are the areas which hampers the growth of the health care industry in our country

Investments

The health care sector is a capital intensive sector and need significant funding to grow.

Inflation and rising cost

The impact of inflation and the ever increasing operating cost of the health care industry like salaries, administrative cost, fuel cost, increase in interest cost are the various factors which affect the health care delivery in India.

Competition by private sectors and obsolescence of medical equipments due to rapid technological changes are the various challenges faced by the health care industry.

A. FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

Financial performance with respect to operational performance has been dealt with in the Directors' Report which should be treated as forming part of this Management Discussion and Analysis Report.

B. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has established an appropriate system of internal control to ensure that there exists a proper control over all the transactions and that all its assets are properly safeguarded and not exposed to risk arising out of unauthorized use or disposal.

The Company has put in place adequate internal controls to ensure that assets are safeguarded and protected against loss from unauthorized use of disposition and the transactions are authorized, recorded and reported correctly.

The internal audit department together with an independent firm of Chartered Accountants reviews the effectiveness of the systems and procedures. The internal auditors evaluate the adequacy of the internal control systems by analyzing and testing controls and make their recommendations to the management to improve controls wherever necessary.

C. MATERIAL DEVELOPMENT IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

Relations with the employees remained cordial throughout the year. In order to optimize the contribution of the employees to the Company's business and operations, in-house training is given to the employees to induce contribution for increased productivity. We have also devised development programmes for all levels of employees. As on 31st March 2012 the employee strength of the Company was 1647.
