Twentieth Annual Report 2008

DIRECTORS' REPORT

To the Members,

The Board of Directors of your Company has pleasure in presenting the Twentieth Annual Report on the business and operations, including the financial statements for the year-ended October 2008.

Financial Results

(Rs. in lakhs)

	For the Year ended 31st October 2008	For the Year ended 31st October 2007
Gross Revenue (including Excise Duty)	10848.79	10509.60
Profit before depreciation	1028.19	1456.22
Less: Depreciation	155.10	226.52
Net Profit for the year before Taxation	873.09	1229.70
Provision for Taxation	312.35	433.06
Profit after tax	560.74	796.64
Add: Profit brought forward from previous year	3614.32	3058.80
Profit available for Appropriation	4175.06	3855.44
Appropriations		
Dividend Proposed	115.00	138.00
Tax on Dividends	19.54	23.45
Transfer to General Reserve	56.07	79.67
Profit retained in Profit & Loss Account	3984.44	3614.32

As compared to the previous year, Carrier revenue during the year dipped by 6% and the Enterprise revenue grew by 20%. The Company expanded its customer base with some new clients. During the later part of the year, the US\$ - Indian Rupee exchange rate movement was volatile and as a result the Company incurred a net exchange loss of Rs. 182.14 lakhs. Across both Carrier & Enterprise business margins continued to decline.

Dividend

Your Directors recommend a dividend of 25% for the year ended October 2008 subject to the approval

by the shareholders at the forthcoming Annual General Meeting.

Directors Responsibility Statement

Pursuant to Section 217 (2AA) of the Companies Act 1956, your Directors confirm that:

- in the preparation of annual accounts the applicable accounting standards have been followed along with proper explanation relating to material departures;
- accounting policies have been selected and applied consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year and of the profit or loss of the Company for that period ;
- proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities ;
- the annual accounts have been prepared on a going concern basis.

Strategy & Operations

A key strategic initiative launched during the year was to gain an entry into the Carrier market through Fibre Termination products. This was successfully achieved by designing & engineering local solutions. Within the enterprise business we also launched an initiative to differentiate from competition through dedicated technical support capabilities and project management. Both of these were well received by the market as tangible benefits were perceived by customers.

From an operations perspective we modeled a great deal of our manufacturing through well established outsourced vendors and improved the agility and cost-efficiency. However towards the later half of the year on account of the Indian Rupee steadily falling against the dollar, several raw material input costs went up, for reasons beyond our control.

Directors

Mr. Arun Thiagarajan retires by rotation and being eligible offers himself for re-appointment.

Mr. Jeffrey D Pflaum and Dr. Michael H Day ceased to be Directors with effect from December 12, 2008. Consequently Mr. Jeffrey D Pflaum ceases to be the Chairman of the Company. Your Directors placed on record their appreciation to the contributions made by these Directors during their tenure as Directors of the Company.

Mr. K. Balachandran, Managing Director has been appointed as the Chairman of the Board of Directors of the Company effective December 12, 2008.

Mr. G. Subramaniam also ceased to be a Director with effect from December 12, 2008. The Board placed on record their appreciation for his long association with the Company and for the valuable guidance given by him during his association with the Company.

We are glad to invite Mr. Bodapati Bhaskar to the Board who became an Additional Director with effect from December 12, 2008.

During the year, Dr. Michael H Day was appointed as an Alternate Director to Mr. Patrick O'Brien and Mr. Richard Vossen was appointed as an Alternate Director to Mr. James G Mathews

Corporate Governance

As required under clause 49 of the Listing Agreement, a report on Corporate Governance and Auditor's Certificate confirming compliance thereof are made a part of this Annual Report.

Particulars of Employees

Information as per Section 217(2A) of the Companies Act, 1956 read with the Rules framed there under forms a part of this Report. However, as per the provisions of Section 219(1)(b)(iv) of the Companies Act, 1956, the Report and Accounts are being sent to all shareholders of the Company excluding the statement of particulars of employees under Section 217(2A) of the Act. Any

shareholder interested in obtaining a copy of this statement may write to the Company Secretary at the Corporate Office or e-mail to: ganesh.r@adckrone.com

Auditors

The Auditors - M/s. S.R. Batliboi & Associates retire at the conclusion of the ensuing Annual General Meeting and offer themselves for re-appointment.

Acknowledgements

The Directors wish to place on record their gratitude to the Company's Customers, Vendors, Bankers, Shareholders, Channel partners and Distributors for their continued support and co-operation. The Directors also place on record their sincere thanks to ADC for their support during the year.

The Directors express their sincere appreciation to all the employees for their dedication, commitment and support during the year under review.

For and on behalf of the Board of Directors

ANNEXURE TO DIRECTORS' REPORT

Particulars pursuant to Companies (Disclosure of Particulars in the Report of Board of Directors) Rules, 1998:

A. Conservation of Energy

During the year Capacitor bank was provided for individual moulding machines. This resulted in 6% saving in energy per machine.

New Rotary screw compressor installed to match the optimum requirement. A saving of about 4KW per running hour was achieved. This will result in 17% saving in the energy consumed for the compressed air in the coming year.

B. Technology

Several fiber management systems were engineered / designed during the year based on the ADC Product features found appropriate for Indian markets. Considerable design & Engineering efforts went into making these products cost effective and to remove entry barriers in the market for these products.

1. Research & Development

Continuous improvements and process changes activities continued during the year.

New products like Digital distribution frames, Fiber distribution / management systems were introduced into the telecom market this year. A range of fiber management products were engineered with features as in the designs of ADC products to cater to the local market. These are presently under evaluation by the customers.

2. Foreign exchange earnings and outflow on cash basis:

(i) Foreign Exchange Earnings (FOB)	- Rs. 44,450,927
(ii) Foreign Exchange outflow	- Rs 27,833,180

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENTS

Carrier:

Indian telecom market was in a continued growth phase with more mobile connections and steady growth in wireless infrastructure. With very low wire-line roll out, connectivity contracts from our mainstream customers like Reliance and Bharti were considerably reduced as compared to last year. To mitigate the dropping copper revenue, initiatives to introduce fibre termination products brought results. With some of the global carriers building their communication infrastructure in India, we had a good start for our fibre product revenue. We also secured market entry with these fibre products with some of our existing customers in the wireless segment. Three major raw-materials in our connectivity business viz. Steel, Copper and Plastic prices were fluctuating and maintaining pricing for long term contracts was a challenge. Added to that, the US dollar appreciation against Indian Rupee towards the later half of the year caused increase in cost for many of the imported raw materials.

Enterprise:

Enterprise business grew by 20% this year. Considering the market slowdown from the middle of the year, this business growth is an indication of higher market share the company is garnering. Focus on Datacentre market was a key initiative in this segment and we won some major Datacentre orders this year. Since Datacentre network infrastructure is much more critical and needs more reliability, our products could get a good acceptance in this segment and this will continue to be a focus area in the coming year also. We were able to gain entry into some global accounts in India through the focused sales efforts by ADC's global key account management team. Copper price fluctuation was a key issue since UTP cables contribute majority of Enterprise business. US dollar appreciation against Rupee towards end of the year required major price corrections. Margins in this segment continue to be a challenge in this business segment.

REVIEW OF OPERATING PERFORMANCE

The financial statements have been prepared in compliance with the requirement of the Companies Act, 1956 and Generally Accepted Accounting Principles (GAAP) in India. The management of the Company accepts responsibility for the integrity and objectivity

of these financial statements and the basis for the various estimates and judgments used in preparing the financial statements.

The financial results for the year ended October 31, 2008 and some of the key performance indicators are given below:

(Rs. in Lakhs)

Particulars	2008	2007
Gross Revenue	10848.79	10509.60
Profit before Depreciation and Tax	1028.19	1456.22
Depreciation	155.10	226.52
Profit before Tax	873.09	1229.70
Ratio of Profit before Tax to Revenue in percentage	8.05	11.70
Profit after Tax	560.74	796.64
Total Assets	7574.11	6685.04
Earning per share	Rs.12.19	Rs.17.32
Inventory Turnover ratio	5.42	6.18 times
Debtors turnover ratio	3.33	3.97 times

The product turnover sale inclusive of excise duty increased has gone marginally from Rs. 10,152 lakhs in 2006-07 to Rs.10,508 lakhs for the year. Profit before taxation has gone down from Rs. 796 lakhs during the previous year to Rs. 561 lakhs in this year. During the later part of the year, the US\$ - Indian Rupee exchange rate movement was volatile and as a result the Company incurred a net exchange loss of Rs. 182.14 lakhs.

The robust growth of the Enterprise business, through a series of initiatives including addition of sales headcount in the technical support area considerably contributed to the overall increase in sales and profitability of the Company.

OPPORTUNITIES AND THREATS

Carrier:

Though wire-line growth is low in the country, our copper connectivity requirement in the wireless segment will continue to grow. Fibre connectivity products for high density fibre applications is another opportunity to

target. Decline of wire-line continue to be a threat for the company. While input costs are rising for imported raw materials and components on account of the exchange rate, these are not being compensated by market price increases by customers. Hence margins will continue to be under increased threat.

Enterprise:

Enterprise datacenters is a key opportunity and this segment is showing higher growth than the LAN (Local Area Networks) cabling segment. Need for strong network infrastructure continues and for many businesses, network is very critical to the business. With the current economic slow down, some of the strong Enterprise segments like the IT/ITeS & Software will not spend like the previous years in network infrastructure. The weakening of the Rupee against Dollar will cause price increase for the imported products.

Managing costs on account of volatile copper prices continues to be a challenge.

RISKS AND CONCERNS

Carrier

Competition from low-cost vendors in China and fluctuating raw-material cost is a concern and risk.

Enterprise

With the Indian Rupee weakening against USD, a price increase would be challenging as some key elements of this portfolio are imported. Copper price fluctuation is another concern which has a direct cost impact on the UTP cables.

LACK OF OWNED TECHNOLOGY

The Company primarily makes and sells technology developed and owned by companies affiliated to it. The right of the Company to continue to make and sell products is therefore contingent upon these affiliated companies electing to utilize the company as a manufacturing or sales channel.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY

The Company has adequate internal control systems for various business processes, financial reporting and compliance with applicable laws and regulations.

The internal audit function is looked after by the group internal audit team who carry out audits on a regular basis on various areas of operations of the Company. The summary of the Internal Audit observations is presented to the Audit Committee and the suggestions and guidance of the audit committee are implemented

to ensure effective operation of all departments in the company.

MANUFACTURING OPERATIONS

During the year the Company stopped engagement of temporary employees for the manufacturing and other operations. Assembly operations were largely outsourced other than the key core manufacturing operations. This entailed training sub contract personnel and considerable increase in transactions. This has helped in meeting very short customer delivery lead time expectations and above all control costs.

Continuous improvements, alternate material sourcing, and process changes activities continued during the year.

New products like Digital distribution frames, Fiber distribution / management systems were introduced into the telecom market this year. Further a range of fiber management products were engineered with purpose-built features for the domestic market. These are being evaluated by the customers.

HUMAN RESOURCE DEVELOPMENT

The total number of permanent employees of the Company as at October 31, 2008 was 138. The Company provides a conducive work atmosphere for the employees enabling high levels of productivity. Employee development is a continuous process and consequently training has been identified as a key area for enhancing employees' skills, capabilities and performance.

INFORMATION TECHNOLOGY

Various IT related activities were taken this year. One such activity which is of significance is the ERP upgrade (MFG PRO) to a newer version. This has improved the various business and administrative processes. With this we have now mitigated the risk by running an outdated ERP not supported by the vendor.

Cautionary Statement:

Statements in this Management Discussion and Analysis describing the Company's objectives, projections, estimates and expectations may constitute "forward looking statements" within the meaning of applicable laws and regulations and which the management believes are true to the best of its knowledge at the time of preparation. Actual results might differ materially from those either expressed or implied and hence the Company and the management shall not be held liable for any loss, which may arise as a result of any action taken on the basis of the information contained herein.
