### 2. OVERVIEW AND REVIEW OF OPERATION

A review on division wise performance of the company is furnished below:-

#### Tyre Division

The total income of the Tyre division for the year 2018-19 amounted to Rs.1076.80 lakhs compared to Rs.955.71 lakhs of in the previous year. The profit before tax amounted to Rs. 2.06 lakhs as compared to profit of Rs. 0.96 lakhs previous year.

During the year this unit has further cut down the extra costs form last year and we have managed better bottom line. Our export was stable and we are working to increase our export in European market and other Asian & African markets. We are pretty confident to improve our performance in coming years with better topline and bottom line.

#### Sadhurhat division

The unit is engaged in manufacturing MCP Tubeless Tires & Hospital Equipments for domestic market. The unit reported an income for the year 2018-19 amounted to Rs. 1687.23 lakhs as compared to the previous year Rs. 923.79 Lakhs and the unit reported the Profit before tax for the year 2018-19 of Rs. 60.31 lakhs compared with previous year of Rs. 36.20 lakhs.

This unit has maintained its profit margin intact as per last year. Also we have increased our topline impressively. We further believe that we can grow higher than industry average. We are very confident for coming years as there are certain bicycle companies which are showing interest in our product as we can offer our unique product with no competitors in India. All this development is in very nascent stage. We hope to see very positive outcome in coming years.

**Wheel division**

The total income of this unit for the year 2018-19 amounted to Rs.119.43 lakhs compared to Rs.148.88 lakhs in the previous year. The unit reported the profit before tax for the year 2018-19 amounted to Rs. (76.16) lakhs compared to Rs. (56.98) lakhs in the previous year.

Due to stagnant export demand its productivity has not been upto mark. With export as well as demand for other units will pick up we believe to use its capacity at higher level. This is a captive unit which is linked with the sales of other units.

**Plastic division**

The total income of this unit for the year 2018-19 amounted to Rs. 332.15 lakhs compared to Rs. 221.46 lakhs. The unit reported the profit before tax for the year 2018-19 amounted to Rs. 75.94 lakhs compared to the profit of Rs. 50.19 lakhs.

The unit performance is quite better from past years due to the increase in production and capacity utilization. We believe that it can be used at full capacity from current financial year onwards with better realizations.

**Footwear division**

The total income of the footwear division for the year 2018-19 amounted to Rs. 695.84 lakhs compared to Rs. 612.54 lakhs in the previous year. The unit reported a profit before tax of Rs. 22.02 lakhs during the year compared to loss of Rs. 27.24 lakhs in the previous year.

During the year we have returned to profits after 3-4 years of losses. This year job work has increased tremendously which helped our footwear unit to return in profits, also there was decent increase in sale of our sole business. Footwear market is been improving after the bad effects in 2016-17 due to demonetization but in 2017-18 it rebounded well with positive sentiments also trend is improving in 2018-19. Our focus has also shifted from low margin products to high margin products. Our trail run for safety shoes has already been completed and we are in process of obtaining BIS certification in 2019-20, we are very confident that it will increase out topline as well as bottom line in coming years after all necessary procedures.

**Engineering division**

The total income of this unit for the year 2018-19 amounted to Rs. 1126.41 lakhs compared to Rs.680.44 lakhs in the previous year.

The unit posted the profit before tax for the year 2018-19 amounted to Rs. 6.93 lakhs compared to Rs. (10.98) lakhs.

Current year was tremendous for the Rehab care unit which shows impressive growth of 70% form last year. We are very hopeful to deliver growth of 30-35% CAGR for next 5 years. As per current government policies, they are pushing hard in this segment with focus on **"Divyang"** for sustained living.

The Indian Rehab Care Equipment Market has stated accepted the Brand **"iCare"** which was very encouraging for our company and the same is also noticeable from the current year itself.

Company has always taken a long term view of this business and the company is also in process to come with more similar products for the disabled persons in the coming year. And the company is also expecting very high demand due to weaker rupee and stronger USD & Chinese Yuan due to which we will be very competitive not only in India but all around the world. This currency situation will help us to increase our sales quickly.

## 2. DIVIDEND

In order to strengthen the financial position of the company the Board of Directors have decided not to recommend any dividend for the Financial Year ended 31st March, 2019 and plough back the profits of the company in its business.

## 3. SUBSIDIARIES, JOINT VENTURES OR ASSOCIATES

At present, the company does not have any subsidiary, Joint ventures or associates.

## 4. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Management Discussion and Analysis Report as required under Listing agreement with Stock Exchange:-

### A. Industry Structure & Developments:-

Krypton Industries Limited (KIL) had a very positive year due to positive market conditions and easing input cost and manufacturing expenses.

Company's primary focus is expansion in Indian Markets for all its product line which include PU Footwear, MCP tubeless tires and hospital/disabled support equipment business. Company is looking for Big OEM's & cycle sharing start ups for its MCP tubeless tires for better replacement market penetration. Company is also focusing on high end products for disables persons and to increase its product portfolio. Also company is aggressively betting for government tenders for Wheelchairs & other support equipment. We have started working on de bottle necking our production facilities and to upgrade our machinery with very minimal capital outlay which help us to enhance our production capacity.

The company has posted positive growth for its footwear business due to change in business model and the company has also restructured the business from complete manufacturing to job work & manufacturing to get better results in the current and future years. The company is also focusing to change the product and customer mix for a stable business. Company is also working in reduction of cost and increasing its efficiency. In footwear segment also we have entered safety shoe segment which will help company to achieve high turnover and high profitability.

### B. Outlook and opportunities

Your Company has identified the following opportunities and future building business areas:

The company's major focus is on MCP tubeless tires in bicycle industry and rehab care business which has very promising in future. Primarily, the PU tire for Bicycle, rehab care products and tires for industrial application will be our main focus this year and years to come for the domestic as well as international market.

With Rehab care / disabled support equipment business, the company is now considered as one of major domestic brand in India with brand name "ICARE" for rehab care products & we have also launched affordable new model of wheelchair in the Brand Name "UDAAN" which was accepted in highly competitive market, with our current product portfolio & brand recognition in market the future looks very promising. With government focus on "Divyang" section of society, huge demand from both government sector as well as from market will come in future. We have been also accredited with certain quality certification which will help company to participate tenders from Defense, NGO's , Hospitals & other government organizations. Company is also continuously making efforts to increase its product portfolio to stay competitive from imports and other emerging players in the segments.

### C. Outlook on threats, risk and concern

#### 1. Business Risks:

Company's main product portfolio is MCP tubeless Tires & castor wheels for industrial applications. It faces major competition from rubber tires which is cheaper than our products in same industry. Also rubber prices are much stable than polyurethane. Also our bicycle tire is new entrant in our portfolio which is still in growing stage and has a huge potential but at the

same time it's a completely new product for the market and acceptance will take some time to establish. Our positive side is that life & quality of our product is much more superior than rubber tires.

In rehab care / Hospital furniture business our company is facing biggest competition from cheap & low quality Chinese products. Also further increase in prices in steel & other raw material items will hurt our bottom line in future. Also passing on additional cost is very difficult in this industry.

Company is normally import Raw Materials and export finished goods during its course of business which exposes it to exchange fluctuation risks and international crude & petrochemicals prices affects the raw material prices.

Company also needed to improve its overall performance in both monetary as well as non monetary terms by emphasizing its product quality and increasing its topline and reducing its overall cost of sales including reduction of Cost of raw materials and other fixed and variable overheads.

**2. Financial Risks:**

Majority of raw material are imported, so any major fluctuation in US\$ can affect the performance of the company. Company is trying to leverage this risk by sourcing more from local vendors. Although foreign exchange risks somewhat balanced by exports and company is regularly covering such risk.

The interest cost is still on the higher side although RBI started reducing interest rates and banks are reluctant in passing the benefit to borrowers. Company is exploring the other means to reduce interest cost.

**3. Legal & Statutory Risks**

Company is complying regularly with all the regulatory requirements with respect to manufacturing, taxations, statutory requirements, company law, SEBI etc, with new laws coming in, this exercise will need more inputs which company is working towards.

**4. Political Risks**

Any major change in local, national or international can effect the business but as, at the moment, company does not have any business with government entities, the risk is minimal. Although company is trying to secure government business at the moment, this can impact positively as well as negatively in a small percentage of growth of the company.

**D. Internal Control System and their adequacy:**

Your Company believes that Internal Control is a required principle of governance that freedom of management should be exercised within a framework of appropriate checks and balances. Your Company remains committed to ensuring an effective internal control environment that provides assurance on the efficiency of operations and security of assets.

The company has an Audit Committee, the details of which have been provided in the Corporate Governance Report. Internal auditor performs their duty and audit committee reviews internal auditor reports and other reports and provides suggestions for improvement /takes corrective actions. The committee also meets the Company's Statutory Auditors to ascertain, inter alia, their views on the Adequacy of Internal Control Systems in the company and keeps Board of Directors informed from time to time.

**E. Financial Performance**

Over all financial Performance of the company is satisfactory in current market scenario, we are cautiously improving in costing point of view which will further add to our margins. Our company will surely improve our topline and bottom line this year and in the years to come.

**F. Human Resource Developments:**

During the fiscal 2018-2019 company has more than 250 Persons on its payroll. Apart from this company has generated indirect employment to more than 700 persons in nearby locations.
