Your directors expect that the initiatives undertaken will result in improvement of financial results in the coming years.

MANAGEMENT DISCUSSION AND ANALYSIS :

Industry Structure and Development

The year 2006-2007 witnessed change in business environment in the light of globalization. Non Banking Financial Companies had to cope up with competition from private banks and allow the lending rates to retain business levels and customers. Some of the NBFCs, had either converted to be part of banks or entered strategic alliance to beat competition. NBFCs, continue to enjoy the flexibility in terms of its operations vis-à-vis banks, in terms of branch expansion, diversified business portfolios, that evinces interest from a number of banking players to expand through a NBFC model.

Outlook, Risk and Concern

Our Company, like any other body corporate, is exposed to specific risks that are particular to its business and environment within which it operates. These include credit risks, market risks and operational risks. We have established policies and procedures to manage these risks.

Opportunities and Threats

The financial sector is undergoing several changes. The line of distinction between types of entities i.e., Non Banking Financial Companies (NBFCs), Financial Institutions, Banks, etc. is breaking down. The NBFC sector within the finance sector has consolidated significantly and only a few large players capable of operating in the new paradigm, where they compete with the MNCs' and private banks, have survived in the mainstream of the financial sector. Other small NBFCs' have moved to niche segments or markets. The induction of higher technology platform and more efficient business operating models of private banks, MNCs' and foreign banks is raising the levels of customer service and setting new benchmarks in levels of competition to acquire customers. This competition, coupled with the cost of customer acquisition makes it incumbent upon the players to manage the economics of their operations in a superior manner. The sector as a whole is continuously looking for better cost controls and new and more efficient processes which reduce costs yet enhance customer service.

Adequacy of Internal Control System

Company has adequate internal control systems to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting and compliance of laws and regulations. The company regularly monitors that all regulatory guidelines are complied with at all levels.

The Audit Committee constituted by the Board reviews the adequacy of Internal Control System.

Financial Performance

Operational Results, 2006-07 Versus 2005-06 :
