3. Reserves and surplus

Reserves and Surplus as at 31st March, 2017 is Rs. 1,64,46,866/- . The Company has transferred an amount of Rs 8,58,460/- to the Statutory Reserve, during the year under review.

4. Management And Discussion Analysis

Industrial Structure and Development

The year proved that analysts and markets often get it completely wrong. The key surprises globally were Brexit, results of the US elections and impact of Demonetisation of the largest democracy in the world. It is heartening to note that, even in the weak global backdrop, our economy remains a visible bright spot. The macro economic conditions of India are amongst the best they have been in recent times.

This year, the incumbent Government pushed ahead with its reform agenda, backed by key wins in the State elections. The outcome of the State elections pushed the equity markets to an all time high in March 2017 and the Rupee witnessed considerable

LEAD FINANCIAL SERVICES LIMITED

relative strengthening in the current fiscal. The top three reforms during the current fiscal were Demonetisation, Goods and Services Tax and operationalisation of the Monetary Policy Committee.

The new Governor of the RBI cut rates by 25 bps in his first policy, but has since held rates, given that the inflation pressures are likely to be exerted by a reviving commodity cycle and global risks to the Indian economy. On the fiscal front, our country's position has improved, helped mainly by controlled spending and higher GDP to Tax ratio. The low crude prices and consequently lower subsidies and higher cesses played an important part in the fiscal strength demonstrated by the Government.

On the interest rate front globally, the Federal Reserve Bank raised rates for the first time, in December 2016 and indicated that they could further raise rates upto 3 times in the calendar year 2017. Closer home, the 10-year Government Securities rates declined by approximately 125 bps.

The declining interest rates in India were helped by easing liquidity, which the RBI mopped up in the course of the year through the Market Stabilisation Scheme, in the latter part of the financial year. The outlook on interest rates is mixed, as the RBI will need to balance growth objectives, especially post Demonetisation, with Inflation targeting. FY 2017-18 may provide some pockets for rate reduction, but the key determinants will be the monsoon and uptick in commodity and crude prices driven largely by artificial supply constraints than demand side.

Outlook Risk and Concern

The Outlook of the Company for the year ahead is to diversify risk and stabilize its asset quality. Credit risk, Market risk, Operational risk and Liquidity risk are the key risks faced by the Company. The Company takes risk management seriously and in process to set the procedures and policies in the area for the assessment and management of individual risk categories.

Except for some unforeseen and extreme event, the Company is well placed on the liquidity front and appropriate policies exist for underwriting credit risk. The Company endeavors to continuously learn and modifies its policies to manage the aforementioned risks.

Opportunities and threats

There are several large and profitable opportunities for NBFCs and the sector plays an important role in the Indian financial system. The key is for the NBFC sector to grow in a prudential manner while focusing on financial innovation and in having in place, the adequate risk management systems and procedures before entering into risky areas.

It will be critical to retain talent at the right cost for effectively building a high performance organization with an engaged and young workforce. Adequate funding at the right cost and tenure will be critical to achieve business growth.

Adequacy of Internal Control System

The Company's internal control system is designed to ensure operational efficiency, protection and conservation of resources, accuracy and promptness in financial reporting and compliance with laws and regulations. The internal control system is supported by qualified personnel for reviewing the adequacy and efficacy of the Company's internal controls, including its systems and processes and compliance with regulations and procedures. The Company's internal control system is commensurate with the size, nature and operations of the Company.

Performance Review

During the Financial year under review, your company achieved total income of Rs. 408.40 Lacs as compared to Rs. 93.30 Lacs in the previous year. Net profit (after tax) for the year is Rs. 42.92 Lacs as compared to net profit of Rs. 6.77 Lacs in the previous year. Your directors are undertaking the initiatives to improve the financial results in the coming years.

Segment wise Performance:

Company operates only in one segment.

5. Material Changes:

There are no material changes and commitments, affecting the financial position of the company between the end of financial year of your Company and the date of Director's Report.

6. Details in respect of adequacy of internal financial controls with reference to the Financial Statements:

The Company has in place adequate internal financial controls with reference to financial statements. During the Financial year, such controls were checked and no reportable material weaknesses were observed.
