Doing business with a technology savvy business partner is fine. But you need a partner who understands your specific needs. A partner who places as much emphasis on technology as on relationships.

You need a partner like LMW.

No one understands your business better than LMW. When you buy our textile spinning machines, CNC lathes, machining centers, castings or project services, you are buying into a 40-year track record of competence.

At our ISO 9000 certified, state-of-the-art facilities, substantial investments have

been made in Research & Development. Besides, we have an in-house pilot plant and foundry giving us the ability to design, develop and deliver globally benchmarked quality. We combine this with an in-depth understanding of your needs, to give you products and services that are tailor-made for you.

With a range of new products on the anvil, we have become a single point reference for machines you can rely upon, to give you quality and cost-effectiveness. A perfect dual edge to improve your company's bottomline.

Our adherence to schedules and high machine uptime have made us an established name in the textile machinery market. Not surprisingly, we have a huge list of over 1,000 customers, 80% of whom have trusted us with repeat orders.

We are also India's No.1 exporter of textile machinery, supplying over one million spindles annually.

With each passing year more and more companies in Asia, Africa and South America entrust us with their business.

Are you ready to forge a partnership with us?

DIVIDEND

Your Directors recommend payment of dividend at 150% on the equity share-capital of Rs.12,36,92,500/- for the year ended 31st March, 2005. The dividend if approved will be paid to those members or their mandatees whose name appear on the Register of Members on 25th July, 2005 for those holding shares on physical form and at the end of the business hours on 15th July, 2005 for those holding shares on Demat form, without deduction of tax.

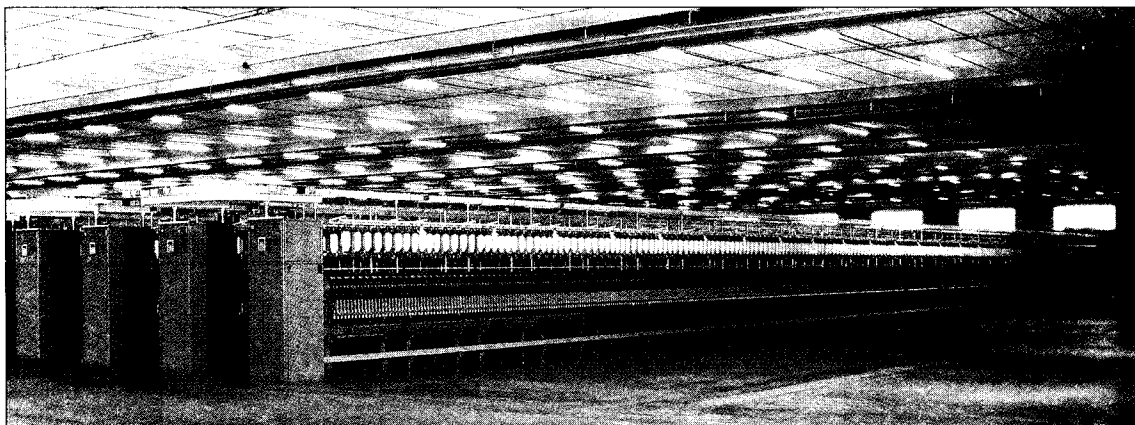

OPERATIONS

During the year under review, the Company has achieved a turnover of Rs.99,077.06 lakhs (2003-2004 Rs.66,349.97 lakhs) resulting in a net profit of Rs.11,088.39 lakhs (2003-2004 Rs.5,918.72 lakhs) before taxation. The increased demand for all the products manufactured by your Company enabled to achieve 53% growth in sales in Textile Machinery, Machine Tools and Castings.

TEXTILE MACHINERY DIVISION

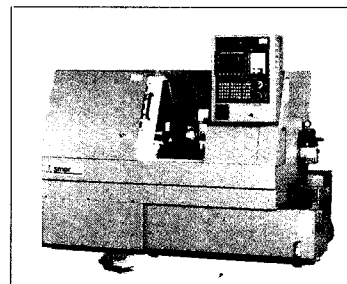

The Indian textile spinning industry had stepped up their investment plans in modernisation, upgradation and expansion of their facilities to integrate itself into the global market in the post quota regime. As a measure of backward integration, many knitting and weaving mills are establishing spinning units to meet their yarn requirements and the Technology Upgradation Fund Scheme benefited for a faster growth. The perspective plan for increase of global market share in Textiles to 7% will trigger demand for yarn considerably resulting in increasing the capacity. The new products developed and introduced in market are all well accepted by the customers. The sudden spurt in demand for spinning machinery resulted in stretching the delivery period. However your Company is taking effective steps to cut short the delivery period in order to meet the customers requirements.

The Turnover of Textile Machinery Division during the year under review is Rs.83,544.76 lakhs as against Rs.56,390.52 lakhs during last year recording an increase of 48% over the previous year.

MACHINE TOOL DIVISION

The demand for CNC machine tools have increased during the year under review. The booming automobile and auto ancillary industry and other engineering industry had contributed to the increased demand for machine tools. This division sold 550 machines during the year under review as against 340 machines during the previous year.

Turnover of this division during the year under review is Rs.10,082.50 lakhs as against Rs.6,339.15 lakhs during the last year.

FOUNDRY DIVISION

High Pressure and quality castings are in great demand and this division had performed well during the year under review. The specialized type of castings manufactured by this division enabled it to remain as a single source of supply to customers in USA and Germany. Siemens, Germany have recommended us for the development and supply of castings to their metro project in India. This division also supplied castings to France and Finland.
