OPERATIONS

During the year under review, the Company has achieved a turnover of Rs. 52,545.07 lakhs (2001-2002: Rs.42,493.23 lakhs) resulting in a net profit of Rs. 3,964.35 lakhs (2001-2002: Rs.2,335.54 lakhs) before taxation. The increase in turnover is due to the improved off-take and demand for the textile machinery, machine tools and foundry items.

TEXTILE MACHINERY DIVISION

The turnover of Textile Machinery Division during the year under review is Rs.45,220.14 lakhs as against Rs.35,509.56 lakhs during the last year.

During the year under review the increase in off-take of machines is mainly due to replacement, modernization and marginal expansion. The number of new projects adding to the spindleage is minimal. As the Indian Textile Industry's yarn export accounts for a considerable share in the World Market, the demand for textile spinning machinery is bound to increase. As our Industry has grown in size and has technology comparable to the technology available in developed countries with adequate infrastructure, it has ample potential for future growth.

MACHINE TOOL DIVISION (MTD)

Turnover of MTD during the year under review is Rs.4,356.65 lakhs as against Rs.3,930.25 lakhs during the last year.

The Machine Tool Industry that had stagnated in the last few years, has shown improvement due to increased off-take by Auto and Auto Ancillary Industries. The expected demand appears to be good and the quality products at competitive prices and strong marketing strategy may give further breakthrough in the market as our products also conform to the European Standards. In order to increase the export turnover, participation in International Machine Tool Exhibition, Trade Fairs, Seminars and Appointment of Marketing agents are planned.

FOUNDRY DIVISION

This division has achieved growth in exports and during this year exports account for Rs.1,653 lakhs (previous year Rs.1,316 lakhs) which constitutes 57.43% of the total turnover. Its intricate and high quality castings meet the requirements of exacting customers like General Electric (USA) and Siemens (Germany and Spain) and are a single source for many castings. This division is poised for exponential growth in the future.

EXPORTS

During the year under review, the company has achieved export turnover as given below:

- a. Textile Machinery : Rs.3,748 lakhs (previous year Rs.4,379 lakhs)
- b. Castings : Rs.1,653 lakhs (previous year Rs.1,316 lakhs)
- c. Machine Tools : Rs. 39 lakhs (previous year Nil)

Continuous efforts are being made to explore new markets besides developing the existing markets.
