4. OUTLOOK & PROSPECTS

The Economic Survey 2020 has continued the vision of transforming India into a 5 trillion-dollar economy by the year 2025 and has emphasized crafting a framework of policies that can foster wealth creation in India. The Survey identifies several levers for furthering wealth creation ranging from fostering entrepreneurship at the grassroots as reflected in new firm creation in India's districts to promoting "pro-business" policies that "unleash the power of competitive markets to generate wealth". The focus is on freeing up the markets from government intervention where it is not necessary and integrating "Assemble in India" into "Make in India". Further the survey highlights the importance of promoting labor-intensive exports with a view to generate more jobs. During the fiscal 2019-20, however, the Indian economy was faced with many challenges on the domestic and global fronts which partially resulted into slowing down its growth rate in successive quarters. To add to the woes of the economy, COVID-19 caused major disruptions in most sectors. In particular, the service sector and MSME Sector were hit hard due to mass lockdowns and social distancing measures that became mandatory with a view to contain the contagion from spreading through community transmission. This adversely affected the NBFC sector also which faced severe liquidity constraints.

However, a huge economic stimulus (around Rs. 21 lakh Crores) announced by the Government of India and the Reserve Bank of India for revival of economic activities comprising of several general and targeted measures have improved the outlook & prospects for the Indian economy in medium to long term. These measures including recent amendments in IBC code, will create conducive conditions for the functioning of financial institutions and markets.

Thus, we see a much-improved positive outlook for the Indian economy in the following fiscal. However, the stagnancy in the global growth rate, rising trade tensions across major economies of the World and uncertainties of monsoon back home will continue to pose challenges to the Indian economy.

5. SHARE CAPITAL

During the year, there was an increase in the paid-up equity capital of the Company on account of the allotment of 20,50,000 equity shares to promoter group in pursuance to conversion of 20,50,000 warrants issued on preferential basis. As a result, the paid-up capital of the Company increased from Rs. 1365 lakhs comprising of 136.50 lakh shares of Rs. 10/- each as on March 31, 2019 to Rs. 1570 lakhs comprising of 157.00 lakh shares of Rs. 10/- each as on March 31, 2020. The Company has not issued shares with differential voting rights nor granted stock options nor sweat equity.

6. DIVIDEND
