EXPLANATORY STATEMENT

Explanatory Statement pursuant to Section 173(2) of the Companies Act, 1956, in respect of **Special Business**:

ITEM No.4

As per existing Article No.133 of the Articles of Association of the company, every document on which common seal of the company is to be affixed, requires to be signed by two Directors, due to which sometimes undue delay to the execution of documents is caused for non-availability of two directors, which is not in the interest of the company.

So, it is necessary to amend the Articles of Association of the company, as given in the respective resolution.

As per the provisions of Section 31 of the Companies Act, 1956, amendment of the Articles of Association requires approval from Shareholders of the Company by way of Special resolution.

Hence, this resolution.

None of the directors are concerned or interested in the above resolution.

A. CONSERVATION OF ENERGY:

1. Energy Conservation measures taken:

Being a National objective, all areas of Power consumption are monitored regularly and leakage loop holes have been plugged.

2. Additional investments and proposals have been made to reduce the consumption of energy.

The company has invested in implementing ISO 9002 procedures bringing about close monitoring and control over all areas of operations.

3. Impact of measures 1 & 2 above for reduction of energy consumption and consequent impact on the cost of production of goods:

- a). Relaying of Pneumatic air pipelines to reduce leakages.
- b). By installing a Chilling unit to maintain Hydraulic Oil Temperature for smooth running machinery during peak summer season.
- c). Preventive maintenance schedules using computer programmes with a detailed spare parts list.
- d). Use of alternative fuel for brazing thereby achieving production in cost and pollution.

B. TECHNOLOGY ABSORPTION, ADAPTATION AND INNOVATION:

The Company through investment in Research and Development has upgraded its Test Lab for measuring cooling capacity of various types of Airconditioner and Refrigerator Units. Data monitoring is done through electronic meters capable of noting temperature at 12 points. Simultaneously also various designs of coils for small manufacturers have been successfully developed which has helped the Small Scale Industry to compete with International Brands.

Further unique technologies have been productionised to improve corrosion resistance during sea travel for exports. Customers can now study drawings facilitated by new Autocad R 14 Software implemented in design. Also net connectivity has improved technical data transfer with overseas customers.

Within the ISO 9002 guidelines, various areas of activity have been identified for using calibrated instruments thus helping to produce quality product to National and International standards like JIS, ASHRAE etc.

Also new type of Copper Tube has been launched which improves heat transfer efficiency.

The R & D effort of the company is continuously to achieve customers hidden and apparent requirements.
