DIVIDEND

In view of the loss the Directors have not recommended any Dividend for the year ended 31st March 2002.

TOTAL INCOME & PROFITABILITY

The Company recorded total Income of Rs. 353.62 crores during the year against Rs. 503.37 crores in the previous year in the wake of continuing economic slowdown and steel industry under doldrums for quite some time now.

The steel sector has witnessed a fall in growth rate during the financial year. Continuous inflow of imports in the name of seconds/defective steel continue to bog the sector marked by decline in the rate of growth. With recession putting squeeze on demand on one hand, paucity of working capital on the other hand, continuing to hamper the effective use of the available resources, the financial year resulted in the cash loss of Rs. 133.71 crores during the year compared with Rs. 315.64 crores of cash loss during the preceding year. The Company has incurred a net loss of Rs. 244.57 crores as compared with previous year loss of Rs. 406.51 crores after providing depreciation of Rs. 110.86 crores (Previous year Rs 90.87 crores).

OPERATIONS

Steel Division

The steel markets were battered for two years by the economic slowdown that has eaten into infrastructure and engineering projects, leaving prices floundering. With domestic overcapacity in the sector, only improvement in demand backed with good show on export front, could mitigate the hardship faced by the sector.

During the financial year Company made exports of Rs. 17.56 crores to various countries.

Engineering Division

The Division during the year under review has recorded a total income of Rs.37.02 crores as compared to the previous year of Rs. 30.49 crores. Slow down and sluggishness in the economy continues impacting the functioning of the Division.

The Division has successfully executed orders of Ispat Industries, MECON/ISRO, HPCL, Kochi Refineries, DRDO, Navy besides other during the year under review.

The Division during the year, in view of spurt of investments by certain Public Sector Undertakings, has successfully bagged orders in a highly competitive environment. The Division, continues to support and service the Defence Research and Development Organisation, Navy, Coast Guard, Hindustan Shipyard, Mazagon Dock, and GRSE in supplying valuable and critical spares besides attending to the service requirements.

RESEARCH AND DEVELOPMENT

The Company undertakes on a continuous basis, various activities such as the development of new products and processes, cost reduction, improvement in quality and productivity and import substitution. During the year the Company made development of API-5L Gr. X-52/60/65 with assessment done by LRIS, and development of high tensile alloy steel grades.

CURRENT YEAR OUTLOOK

Steel Division

The Company has continuously been taking several steps to reduce costs at all levels by way of manpower rationalisation, reduction in operational overheads and streamlining use of available resource etc. The Restructuring exercise undertaken by the company, which was approved by the members could not be proceeded further for want of approval from banks, though approved by institutions.

The recent signs of improvement in Realisation may improve to some extent the pressure on working capital front thereby increase capacity utilisation and help earn better margin.

Engineering Division

The current year appears to be encouraging in view of the industrial revival as would be evident from the orders procured by the division. In line with the above revival, the current year is expected particularly towards servicing of ports, Navy, Defence Establishment and additional facilities of NPC.

REFERENCE TO BIFR

Based on the Audited Balance Sheet for the year ended 31st March 2001 the Company has become a Sick Company as defined under Section 3 (1)(o) of the Sick Industrial Companies (Special Provisions) Act 1985 and reference has been registered during the year with Hon'ble Board for Industrial and Financial Reconstruction (BIFR) to seek determination of measures which would be adopted as required under the provisions of Sick Industrial Companies (Special Provisions) Act, 1985.

MACRO ECONOMIC ENVIRONMENT

Trade barriers imposed by America, the world's biggest steel consumer, through high tariffs on steel imports in order to protect domestic industry, resulting denial of access to the US markets to steel producers worldwide have shaken the prospect of early revival. Indian steel exports may take another blow in the wake of China's plans to impose safeguard levies on imports of all steel items. The fortunes of the Engineering and capital goods sector, in doldrums for quite sometime, could improve on increased spending on infrastructure projects.

However experts are of the opinion that current trend of upswing in local demand and improving steel market is likely to soon push domestic prices to international level.

INVESTOR SERVICES

The Company and its Registrars M/s. Sarthak Capital Services Limited endeavoured their best to service the investor satisfactorily.

EMPLOYEE RELATIONS

During the year under review Employee/Industrial relations at all units and job sites remained cordial. Steps were taken continuously by the Company for training its employees in various disciplines.

MANAGEMENT DISCUSSION & ANALYSIS REPORT

For the Company, the year 2001-2002 was a tough one. On the operation side while the entire steel industry was facing the problem of demand and oversupply, your Company was not an exception. The capacity utilisation and realisation has shown a decreasing trend during the financial year.

Sales turnover

The Sales Turnover of the Company during the year under review was Rs. 34666.26 Lacs as against Rs. 49489.69 Lacs for the previous year.

Adequacy of Internal Control

Company has a very effective internal control system covering both accounting and administrative controls.
