PERFORMANCE REVIEW:

The turnover decreased by 14.50%, and the Profit before Interest and Taxes decreased by 29.15% compared to the previous year. The Earnings per Share decreased from Rs. 6.45 per share in the previous year to Rs 0.90 per share in the year under report. This has been a result of the acute fall in the overall market.

The offtakes in the component division had come down due to a severe fall in the Commercial Vehicles and Tractors last year. There has been a fall in the General purpose machinery sale too, due to a slump in the automotive market. However with support from an improved export performance, the General Purpose machinery division could hold on to a respectable sale although it was lower than the previous year. The SPM division performed much better than the previous years due to some major projects being undertaken by the OEMs. Though the market conditions were not significantly great, the OEMs still went ahead and completed their projects thereby ensuring that the machines on order with us were lifted.

FUTURE OUTLOOK

The current market conditions are slow at the moment and there has been a sizeable shrinkage in the general business. However, your directors we are pleased to inform you that we will be able to sail through this year as;

- 1) We are comfortable on our Special Purpose Machinery Order book and we are more or less booked for the entire year. These are project orders from the OEMs which could be for their Greenfield or expansion projects and they will go ahead and execute these projects regardless of the temporary market conditions.
- 2) The CNC machines division is also expected to maintain the performance as we have had a breakthrough in the Russian market and have already successfully delivered a few machines. There are repeat orders from Russia which should help offset reduction in regular order flows.

The company is exploring other new overseas markets to shore up export revenues.

- 3) On the component division front, we have already made a significant investment in new machining lines in the Pune plant. These lines are expected to commence production in the last quarter of this year and thereby add to our revenues.

With slowdown reaching unprecedented levels, there is a turnaround due now and the government is expected to announce some measures to provide the momentum to the overall growth in the general economic activity which the Directors are hopeful would help further in the current year.

DIVIDEND

Your Directors are pleased to recommend for approval of the Members a dividend of 7.5% on equity shares of the company for the financial year 2012-13, amounting to Re. 0.75/- per equity share.

The dividend on the equity shares, if declared as above, would involve an outflow of Rs. 88,33,050/- towards dividend and Rs. 15,01,177/- towards dividend tax, resulting in a total outflow of Rs. 10,33,42,27/-.

TRANSFER TO GENERAL RESERVE

The Company does not propose to transfer any amount to General Reserve.

DIRECTORS

Mr. K Krishna Swamy and Mr. M. Hariprasada Rao, Directors of the company retire by rotation at the ensuing Annual General Meeting, and being eligible offer themselves for re-appointment.

As required by clause 49 of the Listing Agreement with the Stock Exchanges, the information on the particulars of the Directors seeking re-appointment was given in the notice to the AGM.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The management presents the analysis of performance of your Company for the year 2012-13 and its outlook for the future. This outlook is based on assessment of the current business environment and the expectations, estimates and projections of the management of the Company. It may vary due to future economic and political development, both in the Indian and international economies and due to other factors beyond control.

Industry Structure and Development

The year 2012-13 was marked by growing global uncertainties. Global recovery has stalled, growth prospects have dimmed and downside risks have escalated. The growth of the Indian Economy has also slowed down.

The machine tools industry is always the first to be affected and the last to recover during a revival whenever there is a slowdown in the economy and global uncertainties. Machine tools production in India has decreased to Rs.33,296 Million during 2012-13 from Rs.42,990 compared to 2011-12 registering the annual decline of 22%.

Opportunities & Threats, Risks and Concerns

India stands 13th in production and 6th in the consumption of machine tools in the world as per the latest survey.

Growing global uncertainties, fluctuation of the rupee against the dollar and the euro and persistent double digit inflation may hinder the performance of the company but Improved and sustained efforts of your Company for enhancing the technological competencies and cost competitiveness and sophistication of CNC machines are expected to yield good results in the near future.

The machine tool industry was dependent on the automobile and auto components sector for a majority of its business. But, diversification into emerging areas like aerospace, defense, space, power, railways and heavy engineering has given a new lease of life to the sector. The industry expects better growth in the coming year.

Segment wise Performance

The company has a rich experience of 29 years in automobile sector and in manufacturing of auto component such as Cylinder Blocks and Cylinder Heads, further your company planned to expand further and enter into the manufacturing field of Connecting Rod as there is an interest evinced by our clients. For this new Connecting Rod projects, the company will be setting up a new unit and the requisite machines are been sourced from and equipped by German technology.

With an efficient innovative management team and vast experience in Development, Production, Supply of Machine Tools, Jigs, Fixtures and Accessories needed and Improved and sustained efforts of your Company for enhancing the technological competencies and cost competitiveness the company is expected to yield good results in the near future.

Internal Control Systems and their adequacy

Your Company has effective internal control systems commensurate with the size of the Company. This is further supplemented by an internal audit being carried out by an external firm of Chartered Accountants. The internal auditors conduct audits of the performance of various departments, functions and locations and also statutory compliances based on an annual audit plan chalked out in consultation with the Audit Committee. They report their observations/ recommendations to the Audit Committee of the Board of Directors, which comprises three nonexecutive Independent Directors. The Audit
