MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Lotte India Corporation Limited is one of the pioneer and one of the market leaders in the Indian Confectionery business market. It is engaged in the manufacture and marketing of Toffees, Hard Boiled Confectionery, Chewing Gum and Bubble Gum. Lotte India Corporation Limited is a subsidiary of Lotte Confectionery Co. Ltd., Korea, which is a US \$ 1.5 Billion company.

Lotte India Corporation Limited products are well established across the Indian market. Some of our leading brands are Coffy Bite, Lacto King, Caramilk, Chocovie, 'Spout' Chewing Gum and 'Booproo' Bubble Gum. The Company launched Booproo Cola, Coffy Bite Cappuccino, Thanda Mint, Spout Cinnamon and Caramilk Eclairs during the year 2008-09 across the country and has received a very positive response. The Company aims to be a dominant player in food business in the long run.

The Company caters to the market through its own manufacturing facility located in Tamil Nadu with an all India distribution network and also through outsourcing units located across India.

INDUSTRY TRENDS

GDP for the year 2008-09 is 7.1 per cent and the advance estimates of the Central Statistical Organisation (CSO) expects the economy to grow by 8.7 per cent in 2009-10.

The confectionery industry in India is approximately divided into chocolates, hard boiled candies, Eclairs and toffees, chewing gums, lollipops, bubble gum, mints and lozenges.

The biggest change in the confectionery industry in India over the past 10-12 years has been in terms of packaging and promotions. Today's confectionery

products are far superior in terms of packaging. Even in terms of promoting and marketing the products, every company is spending much more on brand building initiatives, which was almost negligible a decade ago. There is always an increasing awareness among the consumers and the public in general about the confectionery products and the markets today are demanding superior quality branded products.

The majority of the consumers of confectionery products, especially the sugar boiled confectionery products, are the younger generation. The majority of the retail sales in this industry take place in single units and not in packs or in quantities and thus the majority of the consumption is at the "Point of Sale" and there is also an inadequate consumption "in home".

Overall, this sector itself has become more organized and the players in this business are concentrating on ways to improvise their packaging, merchandising and product promotion schemes. There is an uphill trend in the confectionery trade as more companies showing interest in the segment, so this industry is expected to grow in the future.

COMPANY PERFORMANCE

Despite a steep increase in the price of critical raw materials like Sugar, Liquid Glucose, Milk etc, the Company has sustained its margins through various strategic measures and the very focused cost reduction initiatives. The Company has also launched a number of new products viz. Coffy Bite Cappuccino, Thanda Mint and Caramilk Éclairs for which the market response has been quite encouraging. To enhance the product image, the Company has also improved the packaging for majority of its key products. With support from its parent Company, Lotte Confectionery
