Horticulture Division

The Company's maiden venture into horticulture has been successful and in many ways a landmark event in the region. The Company successfully commissioned the pilot project of three green houses, spread over nearly 2.2 acres and have started growing and marketing Gerbera Flowers, Dutch Roses and coloured Capsicum. Sales of Gerbera and coloured Capsicum started in December, 2008, while Dutch Roses sales commenced in February, 2009. Our turnover in Horticulture during the year 2008-09 (four months) has been 8.85 lakhs. Considering that this was a pilot project and the fact that the project has been accomplished in an industrial land, which virtually considered a waste land, the Company has reasons to be satisfied with the progress of the project so far. The Company has received a subsidy of Rs.14.63 lakhs from the National Horticulture Board for the project.

All the stakeholders would be happy to know that our efforts have been recognised by the officials of National Horticulture Board as well as Gujarat State Horticulture Board. Especially our efforts at Rain Water Harvesting, using existing facilities, have been widely appreciated. The Company hosted a Horticulture Seminar-cum-Exhibition for the Gujarat Horticulture department in February, 2009. The 'state of the art' infrastructure was appreciated by all and the Company's flowers won prizes in State wide competition organised by the department.

The Company has requested Government of Gujarat for acquiring additional land. The efforts are continuing and the Company is hopeful that the Company would be able to obtain land from the Gujarat Government.

Trading Division

During the year, the Company gradually quit trading operations in Vanaspati. The turnover of Vanaspati was Rs.12.03 crores (2180 MT). The Company has decided to completely quit trading operations of Vanaspati. This will enable the Company to focus on the newly identified thrust areas.

Management Discussion and Analysis Report**a) Industry structure and development**

The Company has successfully forayed into Horticulture, and has started doing pioneering work in the field. Since the Company aspires to become a prominent player in the Horticulture business, the Company has decided to quit the Vanaspati operations. The Government of India has come out with progressive policies for encouraging Horticulture and the Company would perform better in the days ahead, taking advantage of the changing environment.

b) Opportunities and threat

Agro industries in general and Horticulture in particular is considered a sunshine sector and has a bright future. Your Company would take advantage of being one of the first to venture into this area in the region. The Company has maintained its erstwhile infrastructural godowns, which has been leased out to Gujarat Government fetching a monthly income of Rs.1.67 lakhs. The availability of warehouses, on a Rail Head, with an official Entry Gate to Rakhial Railway Station, will also open up newer opportunities, especially in view of the progressive policies of the Central Government. The threat stems from the fact that your Company has not yet been able to acquire additional land for the planned expansion from Government of Gujarat and may need to acquire it directly at market price.

c) Segment-wise/Product-wise performance

The Company has performed reasonably well in Horticulture considering that this was the first year of operation. The Company has finally decided to quit trading operations of vanaspati and hence the performance was adversely impacted as a prelude to quitting the business.

Madhusudan
Industries Limited

d) Outlook

The future of the Company is bright. The Company hopes to perform better in the coming months, as the Horticulture project has proved successful. The Company will focus more in retail sales of flower with value addition to increase realisation. The potential in warehousing and establishment of cold chain storage also offers immense potential for future. The Company also sees great potential in the field of Renewable Sources of Energy and may venture into generation of Solar Energy.

e) Risks and concerns

The Horticulture project is vulnerable to various environmental factors and hence the plantations needs to be nurtured very carefully. The project also needs a larger scale of operation, for which the Company is trying to acquire additional land.

f) Internal control system and their adequacy

The Company has fully computerised its accounting system since many years which has proved versatile. The system of internal control of the Company is commensurate with the size and complexity of the Company's business. In addition, the operations are subject to periodic internal audit by independent Auditors.

g) Financial performance with respect to Operational Performance is discussed in the main part of the report
