EXECUTIVE CHAIRMAN'S MESSAGE

Dear Fellow Shareholders,

It gives me great pleasure to reach you through this Annual Report which sets out your Company's Strategy and analyses our performance and achievements for the financial year 2010 - 11.

The Highlights of that year, as compared with previous year, are:

- Net sales increase by 16%,
- PAT increase by 73 %, and
- Earnings per share (considering extra-ordinary item) increased from Rs. 14 to Rs. 23.

Today, we continue to focus on three basic Business Growth Drivers.

- First, to grow the core business
- Second, to scale-up the other existing business
- Third, to invest in latest technologies and improve efficiency.

The year 2010-11 reaffirmed that in terms of the business environment, MERINO continued to sustain its growth momentum. India clocked a GDP growth of 8.5% in 2010-11, as against 8%, registered in 2009-10. Fundamentally, with growth firmly back on track, business and market sentiments became positive. The macro-economic parameters suggested that, while there might be the odd shock, the rise in income levels in India would be sustained over a period of time. These developments led to a notable growth in activity in all our interior infrastructure markets.

You would recall that in the period of depressed markets in 2009 and early 2010, we at Merino had focused on looking within and improving the internal systems and processes of the Company. During those months, we had rolled up our sleeves and put considerable efforts on streamlining the fundamentals of our business – sales management, customer analytics and technology. The emphasis was on better targeting of activities to generate higher value from every rupee spent. With these initiatives, Merino emerged a much stronger Company from the market downturn and was even better positioned to traverse a high growth path, once demand conditions improved. In fact, 2010-11 signaled the beginning of this new phase of growth.

Merino conducts its business based on guiding principles of Economy, Excellence, Ethics and, above all, putting customers first. These principles and values have allowed Merino to play a leading role in developing product lines that improve and beautify the quality of human life. They have shaped both the manner in which we have responded to the challenges of the past year as well as our ongoing efforts, on behalf of our customers and shareholders alike, to position Merino for future success and growth. We will have to continue to focus on excellence in innovation and execution and I am confident of my team and its ability to deliver on these fronts in the coming years.

Corporate Social Responsibility (CSR)

We will continue to contribute to a healthy, safe, and comfortable lifestyle and environment around the globe by leveraging our accumulated expertise. Our CSR activities for the betterment of the environment and society are:

- Development of a 'Green Belt' inside the factory by planting shrubs, flowers, grass and trees
- Minimization of waste in all processes through Environment Management Program
- Replacement of CFCs by using vapour absorption machines which use steam as source of energy
- 100% usage of boiler ash in brick production
- Adopting 100 villages in the belt from Hapur, U.P. to Garh Mukteshwar
- Establishing free dispensaries as well as provided mobile vans and doctors on service. This initiative is supported by the Government of India and W.H.O.
- Follow up checkups & treatments are made available for up to 2 years curing the patient

We empower the education movements in India:

- By way of affording equal opportunity to deserving and needy students for studies;
- By publishing books for student welfare

We are proud of our initiative ANNAPOORNA, which is our participation in the "Swami Vivekananda" Mid-day, Meal Program through which nutritious and hygienic meals are provided to students and includes girls studying in primary schools and children belonging to the weaker sections of society.

Well-Positioned for Future

With our strong performance in the past, the company remains well-positioned to capture the economic tailwinds that hold such promise for our future. Our plans for helping to meet the growing need for high pressure laminates and interior infrastructure products are well on track, and moving ahead at an accelerated rate. That is the primary reason why we remain so confident about the company's prospects and our ability to deliver significant value to customers and investors in the years ahead.

We firmly believe this is a great time to be associated with Merino. To all who share our commitment to improving global living standards and our passion for serving our customers and stakeholders, we acknowledge your continuing support and convey our appreciation to the dedication and hard work of the employees at all levels.

With Best Wishes,

Yours sincerely,

Champalal Lohia
Executive Chairman
