REPORT OF THE DIRECTORS TO THE SHAREHOLDERS

Your Directors hereby present the Thirty-eighth Annual Report together with the audited statements of Account for the financial year ended 31st March 2004.

WORKING OF THE COMPANY

The working of the Company for the year ended 31st March 2004 as compared to the previous year was as follows:

	Current Year Ended 31.3.2004	Previous Year Ended 31.3.2003
	(Rupees in Lakhs)	
Loss before Interest & Depreciation	(-) 1.80	(-) 52.05
Interest	97.59	93.45
Depreciation	45.94	48.66
Loss	(-) 145.33	(-) 194.16

The Company continues to work under severe financial strain. The Production of BOPP Film continues to be suspended and the foam factory is working at low levels of production due to various factors, mainly shortage of funds. In view of the erosion of the net worth, your Company has reported the same to BIFR.

DIVIDEND

In view of the loss for the year, no dividend is recommended for the financial year ended 31st March 2004.

ACCOUNTS

After charging Interest of Rs.97.59 lakhs and Depreciation of Rs.45.94 lakhs, the Company's working has ended in a loss of Rs.145.33 lakhs for the year ended 31st March 2004. After taking into account the carry forward loss of Rs.681.08 lakhs from the previous year, the total loss of Rs.826.41 lakhs has been carried over to the Balance Sheet.

During the year the amount to be paid to the Gratuity Trust was Rs.53.14 lakhs on actuarial valuation as on 31.3.2004. In view of severe paucity for funds, the company could pay only Rs.20.50 lakhs to the Gratuity Trust Fund. All claims received during the year were settled promptly. The employee strength of the Company which was 254 as on 31.3.2003 reduced to 172 as on 31.3.2004. There were no gratuity claims pending settlement as on 31.3.2004.

The Directors have no convincing evidence that sufficient taxable income in the near future will be available and feel as a measure of prudence not to recognize deferred tax asset, in view of past unabsorbed depreciation and carry forward business loss.

Mr. Roy Mammen retires by rotation at the Annual General Meeting and is eligible for re-election.

ANNEXURE TO DIRECTORS' REPORT FOR THE YEAR ENDED 31.3.2004
(Pursuant to Clause 49 of the Listing Agreement)**MANAGEMENT DISCUSSION & ANALYSIS****Overview**

The Company is now mainly engaged in the production and sale of Latex Foam Rubber products like Mattresses, Pillows, Cushions etc., under the brand name of "mm foam". The sleep segments, the upholstery segments and transport segments etc., have very large usage for Foam Rubber products.

OPPORTUNITIES AND THREATS**Opportunities**

Many western countries are shifting to usage of eco-friendly products and the demand for Foam mattresses is going up. Even in the domestic market though alternate products like Polyurethane, Rubberised Coir & Spring Mattresses are available, Foam Rubber has its own edge over these products. Foam rubber products have a good retail as well as institutional market, keeping in line the trend in Western countries.

Threats

Foam rubber being an industry earmarked for Small Scale Sector, competitors are exempted from excise duty and much cheaper, sub-standard Mattresses are available at very low prices in the market. The overall customer awareness of the quality of foam rubber is poor which leads to purchase of unbranded cheaper products. Moreover, the acute shortage of working capital chokes our efforts to increase production and sales.

Segment Analysis

The Foam Rubber mattresses, pillows, cushions etc. did reasonably well during the year. The Company could not launch sustained advertisement and other sales promotional schemes due to financial constraints.

As regards BOPP, the production stopped in October 2000 due to labour problem and the Company has no idea of restarting the same.

Internal Control System

The Internal Control Systems are adequate enough for the present level of operation. Management is taking steps to put in place more controls in various areas.

Financial Performance

With focus on market collections the Company could manage the level of production and sale achieved during the year. However, heavy financial constraints like large bank borrowing, BOPP division not operating, the Company continues to be under severe financial strain.

Human Resources / Industrial Relation

The Company has been taking considerable action in reducing the manpower over the last 3-4 years. The employment level has come down from 663 in 1996 to 254 in March 2003. This has further been reduced to 172 in March 2004.

Outlook

We expect to maintain the foam rubber production & sale at the current level during the coming year

REPORT ON CORPORATE GOVERNANCE

Corporate Governance envisages transparency, supervision and internal controls. The Company believes that all actions must serve the need to encourage efficient use of resources and ensure accountability.
