To Dividend Tax – 12.81%	2.10	-
To carry-over to future years	5.58	16.14

DIVIDEND

Considering the strong & comfortable liquidity position of the Company, the requirement of funds relating to projects on hand, and the satisfactory operations during the first quarter of the current year, coupled with comfortable operating margins, your Directors are convinced that, despite considerable reduction in Profit after Taxation, and the consequent reduction in Disbursable Surplus, in upholding the commitment of your Company to maximize returns to the shareholders, dividend at 16% may be considered this year and, accordingly, recommend a dividend of 16% (previous year 30%) on paid-up equity, to be paid to the members whose names stand registered in the Register of Members, as on the date of this Annual General Meeting.

Your Directors are confident that the members would appreciate the circumstances under which your Company is constrained to recommend this dividend at 16%, which is lower than that of the previous year.

PERFORMANCE

During the year under review,

- your Company achieved a gross revenue of Rs.965.28 millions, registering an increase of 14% over that of the previous year;
- actions initiated by your company during the previous year to further strengthen its manufacturing, technical and service skills, yielded results;
- more products were added to the manufacturing base;
- the strong customer base continued to patronize your Company's products, riding purely on the strength of peerless quality and service;
- export earnings grew considerably, giving the fillip and confidence to your Company's capability to successfully compete in the international markets;

MRO-TEK LIMITED

- the selling prices continued to be under pressure due to declining global trend, reducing the operating margins;
- by further streamlining and re-structuring the procurements, and procurement costs, the average operating margin was maintained at 24%;
- however, certain compelling circumstances inevitably constrained your Company to adopt a few fire-fighting measures such as, liquidation of a portion of inventory at salvage value, in order to arrest further erosion in their value and saleability, which resulted in reduced 'contribution' consequently resulting in reduced PBT;
- additionally, absorption of overhead expenses incurred in R&D activities, resetting of a portion of inventory and debtors, as well as statutory write-off due to prevailing accounting standards, had their impact on the PBT.

As a result of all the above, the Profit Before Taxation, at Rs. 46.44 millions, registered a 52% decline as compared to that of the previous year.

Your Directors wish to reassure, that every action shall be taken to arrest such erosions and wish to add that such reduction in profits should not be of concern, since most of the above are of one-time / non-repetitive nature.

PROSPECTS & OUTLOOK

Technological advancements being implemented in the Country, particularly in service sectors such as Banking, Finance, Communication and other infra-structure, assure a never-ceasing demand for your Company's products-viz., Networking and Access products.

In this setting, efficiency lies in positioning of the products at the opportune time & place, coupled with an efficient and constant market prowl.

With the present economic turbulence showing definite signs of cessation, your Directors are hopeful of the global market adequately opening up. Additionally, the products being developed by the R&D section of your Company would positively add, not only flavour but also find favour with the enlightened customers, who are convinced about the superiority of your Company's consistent performance in terms of quality and service.

Exploring export potential, also for services such as Network Design, should deliver better results during the current and coming years.

With all out efforts in maximizing revenues and minimizing expenditure, your Directors are hopeful of presenting more cheerful annual reports in the years to come.

FINANCE

During the year under review, your company made considerable savings in Finance Charges. This was possible by close monitoring of finances, and also successfully achieving

- considerable reduction in interest rates and bank charges;
- swapping Rupee Loans with Foreign Currency Loans, to take advantage of most economical lending rates;
- reduced cycle time on collection of debtors.

The strengthening of Rupee gave that additional edge in import financing.

Your Directors place on record their sincere appreciation for continuing assistance and whole-hearted support from State Bank of India and Canara Bank.

Pending hearing and disposal of the requisite application/s made before the respective Appropriate Authorities, no provision has been made in respect of demand for

- 'short-payment of customs duty' amounting to Rs 64.63 millions, on certain imports made by your company, in the normal course of business, pertaining to software component of equipments so imported and
- 'differential Income-Tax' pertaining to Assessment year 2000-01, amounting to Rs 30.70 millions.

Requisite details pertaining to these have been furnished, under Schedule-17, Notes to Accounts, under Note 22 dealing with 'Contingent Liabilities'.
