Aluminium is the second most widely used metal in the world after Iron. This is owing to its unique properties such as low weight, high strength, superior malleability, easy machining, excellent corrosion resistance, and good thermal and electrical conductivity. Aluminium is also very easy to recycle

Our mission is to provide our customers with a quality product, deliver satisfaction and build strong partnerships.

- To ensure we deliver goods and services as safely, effectively and as efficiently as possible, keeping our social responsibilities in mind while additionally building on our green initiatives.
- To provide opportunities for our internal and external customers, and help them build a better future for themselves. Achieving these deliverables profitably and timely and in turn providing value to our stakeholders.

To become the leading Aluminium extrusion brand, by consistently delivering the best-in-class products and services and making our customers, partners and stakeholders proud to be associated with us

Chairman & MD Message

Fellow Shareholders,

Maan has made significant progress this year, in line with our strategy to reduce operational cost and increase revenue and resources across our businesses. Through the year we have delivered better than expected numbers on a quarter on quarter basis, the credit goes to our highly dedicated personal and their commitment to performance and growth. We are also delighted to have provided a Rs 1/- dividend for the year to our shareholder.

Financial Performance

We delivered a strong set of numbers for FY 17-18, which once again benefited from our record production and diverse revenue. We recorded our highest revenue of Rs 449.07 crores for the year which is an increase of 26.13% for the previous year. EBITA stands increased to Rs 17.35 crores from Rs 12.80 crores which is an increase of 35.5% on a YOY basis and also basic earnings per share rose by 98% to Rs 9.49.

We are quite positive to improve on our financial performance and looking forward to stronger numbers in the future.

Sustainability

Maan has been committed towards sustainable development, we believe in today's day and age we have a to be responsible towards the environment and overall social welfare. We are Engaged with communities who provide welfare for humans and animals alike. Employees safety is a key factor and the management and board members are focused on the same. Working on renewables to reduce our carbon foot print is our priority and we feel committed to it.

Industry Outlook and the Future

The Aluminium industry is going through a turbulent face due to duty sanctions imposed by the United States there by creating a disturbed global trade scenario. With risk of trade war looming over our shoulders, the next year is going to be quite challenging and difficult for many players to sustain the market share and margins.

In the forthcoming year we are hopefully to see trade scenario would be in India's favor and would enhance Maan to maximize its potential.

Finally, on behalf of the board I would like to hand our employees who have contributed to the excellent performance during the year. Our dedicated team providing unrivalled growth and settling benchmark standards will help maintain sustainable growth and maximize shareholder value.

CEO Message

Overview

We are pleased to inform that we have ended yet another successful year with excellent results. Despite the increasingly challenging environment, we continue to grow our business profitably. This would not have been possible without our people. At Maan, our members are passionate about making a measurable impact in everything we do. It is the power of our people, our unique culture and innovative approach, which helps us deliver enduring results. Maan celebrates and empowers the individuality of each of its members and their unique personalities that have led to the success we have reached today. At Maan, we believe that only when you are empowered with freedom and opportunity, you rise above the task at hand and take complete ownership to make a difference.

GST Impact

The new financial year has started on an encouraging note with the Government keenly pushing the implementation of the Goods and Services Tax (GST) from the second quarter of the financial year. GST is the most significant tax reform since independence for what is now Asia's third largest economy. It subsumes the messy plethora of indirect taxes, duties, surcharges and cesses into a single tax, thus making the movement of goods cheaper and seamless across the country. We have taken a 360 degree approach towards getting ready for GST. We have worked towards making the entire system ready for this reform, which comprises our sales channel partners, procurement vendors, supply chain & logistics partners, and other business associates. We are educating our business partners through training sessions, and providing all the necessary support for a smooth transition to GST.

Financial Highlights

I am pleased to report that this year we have achieved our highest revenues ever Rs. 353.65 crore, a growth of 25.76 % over the previous year. Net profit for the year at Rs. 6.48 crore is higher by 104 % over the previous year. Earnings per share for the year improved to Rs. 9.49 per share against Rs. 4.83 previous year. Our Exports sales have grown up by 51.25 %

Going forward, we remain committed to further enriching the experience of our customers and investing in additional infrastructure and productivity improvements. We are aggressively working on to bring down our cost of production, in view of same we are in a process of taking over a solar plant for our captive use.

Our greatest competitive strength of course, is our people. We are fortunate to have a team of dedicated professionals, who are working more closely than ever before to realize the full potential of Maan. I would also like to extend my heartfelt thanks to you, our shareholders, our customers all over the world; for retaining your trust in us; through all times.

5. FUTURE OUTLOOK

2017 was a "year of surprises for the aluminum market,".

"Prices moved to the tune of Chinese government announcements."

Aluminum prices averaging \$2,003 in Q4 2018. The maximum forecast provided for the period was \$2,300 and the minimum was \$1,779.

During the year, there will be a number of factors for investors to watch. One is the US government's two separate national security investigations into imports of aluminum and steel, which have a January 2018 deadline for recommendations. They are expected to result in a combination of tariffs and quotas on imports from China, and could impact aluminum prices.

Shanghai Futures Exchange aluminum stocks are still at "record highs," and added that China could ramp up aluminum production after the winter period ends in mid-March.

"[The] new capacity additions and restarts could be a catalyst for a correction in the aluminium prices. But a correction — not a price collapse,"

"capacity controls, environment and consolidation will be the key themes to watch out for in 2018."

Aluminium Extrusion demand remains buoyant with ever growing uses in automotive, transportation, packaging, building and construction, marine, consumer durables, solar, industrial equipments, defence and power sectors.
