- a. Design the logic circuit that will implement the output z using the gates of Figure 1 and the minimum number of 2-input NAND gates and inverters. Assume that the inputs x and y are available in both true and complemented forms. Indicate the logic function of each gate and the output z in terms of x and y .

data from a survey of 1,000 U.S. adults. The results show that 60% of respondents believe that the company's use of facial recognition technology is "a good use of technology," while 40% believe it is "a bad use of technology." The survey also found that 70% of respondents believe that the company's use of facial recognition technology is "a good use of technology," while 30% believe it is "a bad use of technology." The survey also found that 70% of respondents believe that the company's use of facial recognition technology is "a good use of technology," while 30% believe it is "a bad use of technology."

^a The number of participants who did not finish the task is reported in parentheses.

The authors would like to thank the FRT directly for the help related to the use of the FRT and B. Thomsen for his help related to the FRT of the measurement of the work function of the electrodes.

Using the data under license, the Institute of Transportation Studies at Concordia and others prepared a report, *Concordia's Transit System: A Vision for the Future*, for the Institute for the Study of Transportation and the City of Montreal, dated 1 April 2002.

NOTICE TO THE SEC REGISTRAR: The Company has failed to file its 2010 Form 10-K by the date of its obligation (90 days) pursuant to the obligation, the Company has voluntarily filed the annual report, and the SEC has accepted the filing. Subject to the filing, the Commission charged the issuer with the filing of the annual report, and the Commission has accepted the filing.

During the 2000-2001 season the Company's vineyard planted grapes in January. By mid-June, approximately 50 vineyards achieved a stage of budbreak, which marks the onset of dormancy for the leaves and budbreak for the fruit. Through the summer, the vineyard's leaf canopy has died and its dormant buds, which are now dormant, have begun to grow. The Company's vineyard planted grapes in January.
