2. Management Discussion And Analysis

(a) **Industry Structure and Development:** The Indian economic growth decelerated in 2008-09 to 6.7 percent. The Industrial Sector witnessed a slowdown during 2008-09 as a consequence of successive shocks, the most important being the knock-on effects of the global financial crisis. The global financial meltdown and consequent economic recession in developed economies have clearly been major factor in India's economic slowdown. The rise in the cost of inputs during the beginning of the year reduced manufacturing margins and profitability. The performance of your Company during the year under report has shown the fall over the previous year. The total revenue for the year ended March 31, 2009 amounted to Rs.2,788.45 lacs, as against Rs.3,489.04 lacs, registering a decline by 20 per cent over the last year.

During the year under review your Company has upgraded its existing products with better technology and features. The construction at newly acquired additional space in Navi Mumbai is complete and operations have started in full swing.

(c) **Outlook:** The overall outlook for the Indian Economy is not very encouraging. The year has been marked by a very strong downturn

in growth due to multitude of factors, the most important being the global financial shock that not only impacted the financing of industries but also their domestic and external demand.

(d) **Threats and Concerns:** The most important threat continues to be competition from low cost imported products.

Manpower costs are rising as many large companies are mopping the available talent pool supply of which is limited. Thus for small and mid-range companies, retaining high quality manpower is a concern.

(e) **Internal control systems and their adequacy:** Your Company has well established and adequate systems for internal control to provide reasonable assurance that all assets are safeguarded; transactions are authorized and reported correctly.

The internal control system provides well documented policies, guidelines authorization and approval procedures for its operations. Your Company maintains controls of high norms both in raw material as well as finished goods. The percentage of rejection from market has reduced drastically due to controls set up in this division.

To achieve high level of customer satisfaction, your company is regularly conducting training programs for its engineers and technical staff on continuous basis, this has resulted in call solving at the initial level itself.

The distribution activity of your Company is mainly controlled through appointing well established dealers who are experienced in this field and setting up targets for sales and service.
