OPERATIONS :

The year under review saw the successful completion of the development phase of the software projects already on hand. The subsequent stage of implementation of the projects started and has made normal progress. All the modules developed for the GEB have been subsequently tested under live conditions and completely debugged and made fully operational. The software has been successfully implemented in thirty five locations. Implementation in the other locations is under way. Magnum has taken a proactive role in ensuring not only that the software works properly and that concerned employees of the client organisation are well trained to operate the same, but also in suggesting optimum use of the systems to ensure maximum benefits. In the case of RTO, the software has been tested and accepted by the client, and implemented in six locations. Implementation at other locations is awaiting the installation of necessary hardware and identification of operating personnel. SAP implementation at GIPCL has also been seen to successful fruition and the system is fully operational there. During the year under review Asset Modula under SAP environment has been successfully completed by the company in last quartely of the year. During last Quarter of the year Magnum Ltd. has been awarded the work of providing their staff for the Data Entry job of Sales Tax Department. Company has put 39 employees at different location of Sales Tax department effective from January 2004. Magnum also undertook and successfully executed a number of data entry projects of Government of Gujarat.

CURRENT YEAR PROSPECTS :

Prospects for the coming year are very good both on account of on-going projects and new projects. The implementation of software in the remaining 43 divisions of GEB will be undertaken during the current (coming) year. Implementation of the RTO software is also expected to be completed at all locations. The company also proposes to enter e-governance in a big way, by offering innovative and productive solutions. Company is expecting to get further order from Sales Tax department for putting 120 manpower for their different offices throughout the state for computerisation work. The company also expects to bag a few major projects for custom development of software.

DIVIDEND :

Your directors express their inability to recommend any dividend for the year under review. However the directors are hopeful that in near future, the Company shall be in a position to reward the shareholder.

DEPOSITS :

The Company has not accepted any deposits during the year to which the provisions of section 58A of the Companies Act, 1956 and Non-Banking Financial Companies (Reserve Bank) Directions, 1977 are applicable.

Management's Discussion and Analysis of Financial Condition and Results of Operations**OVERVIEW**

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956, and the Generally Accepted Accounting Principles (GAAP) in India. The discussion on the financial conditions covers historic as well as the future projects. The forward-looking statements involve risks and uncertainties. Although the management has considered future risks as part of the discussions, future uncertainties are not limited to the management perceptions.

INDUSTRY STRUCTURE AND DEVELOPMENT

Indian software and services industry grew by 28.20% in financial year 2003-04 (source: NASSCOM) registering revenue of US \$ 15.90 billion up from US \$ 12.40 billion in 2002-03.

Despite numerous adversities such as appreciation of rupee, slow growth of IT spending globally, movements against outsourcing to Indian companies in major economies worldwide, the Indian software and services industry was able to maintain its momentum and continued to scale up on the growth trajectory.

Software companies from India continued to move up on the value chain by demonstrating and providing quality and reliable products and services to customers globally.

A. COMPANY BACKGROUND

The Company was incorporated on 3rd January 1992 as Magnum Project and Investment Consultancy Services Private Limited with its registered office at 3rd Floor, Smit Complex, Off C.G. Road, Choice Lane, Navrangpura, Ahmedabad – 380 009 and was subsequently converted into a public limited company on 6th May 1994.

The company's business broadly consists of software product development and marketing and software development and support services for government entities.

Our Company believes in nurturing good and ongoing relationships with the clients.

B. COMPANY MANAGEMENT

The Company is managed through a Board of Directors with Dr. Gitesh K. Shah as the Vice Chairman and Managing Director. The board consists of eminent individuals who have had successful stint in their careers.

C. RISKS AND CONCERNS

1 Business Portfolio Risks

1.1 Market risks

Market risk is the risk of loss of future earnings. Our revenues are difficult to predict because they can fluctuate significantly as we operate with the government.

2 Financial Risks

2.1 Liquidity

As a part of financial strategy the Company maintains a high level of liquid assets.

2.2 Credit risks

The business of Magnum involves extending credit to customers. With the company operating and providing software services to the government, effective procedures and recovery mechanism have to be installed in order to reduce the recovery period.

3 Legal And Statutory Risks

3.1 Contractual liabilities

The Management has clearly charted out a review and documentation process for contracts. This process focuses on evaluating the legal risks involved in the contract, after ascertaining the contractual and legal responsibilities of the Company under the applicable law. Effort is made to restrict our liability for damages arising from negligent acts, errors, mistakes or omissions in rendering services under the contract. The Management reviews this on a continuous basis and takes corrective action. As a matter of policy the Company does not enter into contracts which have open ended legal obligations.

3.2 Statutory compliance

Compliance with respect to various laws in India as well as jurisdictions of other Countries where the Company has its business activities is an important task. Magnum has compliance officers as well as consultants who advise the Company on compliance issues and ensures that the Company is in compliance of such laws. The compliance officers report from time to time on the compliance or otherwise of the laws of various jurisdictions to the Board of Directors.

1 Internal Process Risks

4.1 Project execution

At Magnum we firmly believe in carrying out improvement in all facets on a continuous basis. This approach facilitates in addressing business risks and eradicates all elements of ambiguity in conducting business.

The organization has adopted the ISO-9001:1994 standards thereby ensuring that uncertain areas are identified and measures are taken to mitigate them at the project stage itself.

4.2 Human resource related risks

Magnum remains totally committed to its human resources, which it believes are its life source. Though the software industry faces a lot of shuffling of skilled manpower, Magnum has experienced significant growth in recent years.

2 Forecasting Model

Business organizations operate in an environment that is constantly changing. Some changes are quite unpredictable (random) but when some kind of prediction or forecast can be made decisions can be taken (given the objectives of the business and subject to any constraints, which might apply) based on the expectations of future conditions. Hence a very robust forecasting model, which captures the uncertainty in the business, is highly critical for the success of every organization.

The company forecasts revenue and profitability on a yearly and project basis and continuously evaluates performance against forecast.

3 Management Information System

The company has put in place an improved MIS for project control and cost reporting to increase productivity and efficiency of operations and quality of software development.

D. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The company has well defined roles, responsibilities and authorities for employees at all levels, this helps in effectively defining the communication channel. Along with impeccable internal information system the company aims at promoting operational efficiency while emphasizing adherence to policies.
