Presently the Equity Shares of the Company are listed on the Stock Exchanges at Mumbai, Delhi, Kolkata, Ludhiana and Jaipur.

MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT
1. Outlook for the Industry

The Dairy Industry in India is undergoing diversification, expansion and consolidation. These structural changes are a consequence of de-licensing and economic liberalization. The role of private sector is increasing especially in those areas where there is a marketable surplus beyond the carrying capacity of the existing cooperative sector. Companies are upgrading technology to keep pace with increasing demand for dairy products.

MNC's and large Indian Companies are expanding capacities through acquisitions and setting up new milk processing plants. While the MNC's have the advantage of international brands, technological capability and rational distribution network, the Indian Companies have large milk procurement networks.

MAHAAN FOODS LIMITED

2. Future Prospects

The Company has been able to develop a strong marketing and distribution network for selling its FMCG products under the 'Mahaan' brand consisting of 800 distributors and 1 lakh retailers spread over 15 states. Although because of competition, the growth of medium size dairy Companies continue to be difficult and margins remain under pressure, the advantage of being a Company having extensive product range, modern manufacturing facilities, a well knit marketing structure coupled with dedicated team of management and personnel should enable the Company to contain the negative impact and turn into a satisfactory performance.

3. Risk and concerns

A large number of players in both the organized and unorganized sector enjoy price advantage due to tax concession or other unfair practices. The early implementation of VAT should have been removing the disadvantage to certain extent.

4. Internal control systems

Mahaan Foods Limited has put in place a computerized system of transaction management in almost all areas. The internal checks and control mechanism is in place, which ensures adequate checks and balances. The Audit Committee whose Chairman is an independent Director, meets periodically to review the existence of internal control systems.

5. Operational vis-à-vis Financial Performance

The Company manufactures quality dairy products and has been an ISO-9002 Company. The crowded price competition and unfair practices have had a dampening effect on Company's performance in the last few years. The financial performance / results do not commensurate with the high quality standards of the Company's products.

6. Material Development in Human Resources / Industrial Relations Front

The team of people in the organization has been working with dedication, diligence, devotion, determination, dynamism, discipline and direction. The Company believes that motivated employees are its most important resource and asset. Industrial relations during the year were cordial, co-operative, concerted and peaceful. As on 31.03.2003 there were about 80 employees on its rolls.
