Textile Unit Operations

Reeling under strains of prevailing general economic slow down for practically whole of the year under review, the industry has been passing through a difficult period. Price volume performance of the company's textile unit, under these circumstances, has just about been maintained. The Company continued its march on the Technology upgradation path in respect of its principal business of yarns. This is nearing completion in the current year. The thrust areas, viz. product quality upgradation, value addition and market development including deemed and direct exports, are currently being addressed. Results of these exercises have been encouraging.

Power Generation Unit (PGU) - Base Load

Company's programme of expanding the capacity of its PGU (base load) from the initial 3.8 MW to 7.6 MW. by installing and

commissioning the second power plant, was completed on schedule. This has enabled the Company reach cent percent independence as to its requirement of electricity for the captive use at its textile unit. Due care of Operations and Maintenance of both plants of the unit is being ensured.

Overall working

While the Textile Unit operations have been on a transition trail, its Power Generation Unit operations have helped it return an overall improved profit performance at the corporate level. In the meanwhile the Company is steadily reaching better levels of confidence to respond to challenges of intense competition in the more and more demanding market place. Fabrics side of the Textile operations of the Company is to be brought into a selective technical upgradation and development focus in future for which possibilities are being explored.

Outlook for current year

Overall working of the Company in the current year has been so far so good, thanks to the anticlimax for the recession-stricken cotton textile industry, finding itself in the midst of a favourable spell of raw material prices for the time being. With the total failure of monsoon for the third consecutive year this time in our region, however, the nature poses an unprecedented threat as to availability of water which is so crucial to maintain working of the textile unit as well as the PGU.

Statutory Information

Information as required under the Companies Act with regard to energy conservation, technology absorption, foreign exchange earnings/outgo and employees are given in the Annexures hereto which form part of this report.

Public Deposits

The Company had Public Deposits aggregating to Rs. 284.77 lacs as on 31st March, 2002. All the statutory requirements in connection with the same are complied with by the Company.

Directors

In accordance with the Articles of Association of the Company, Smt. Alka Bangur, retires by rotation from the Board of Directors and being eligible offers herself for re-appointment.

Notices under section 257 have been received from members of the Company signifying their intentions to propose their appointments as Directors of the Company.

During the period under review, Shri SR Mohta, Director of the Company, expired on 12.10.2001. The Board condoles the sad demise and places on record its appreciation for the services rendered by him during his tenure as Director. Shri MM Kasat resigned from the Board w.e.f. 31.3.2002. The Board is pleased to place on record its appreciation for the services rendered by him during his tenure as Director.
