Scheme of Arrangement / Amalgamation

In order to build a robust, global scale business in forging and to reap the benefits of operational synergy and enhance stakeholder value, the forging entities of the group namely, Stokes Group Limited, Jeco Holding AG and Schoeneweiss & Co. GmbH were integrated by way of a Scheme of Arrangement between Mahindra Stokes Holding Company Limited, Mahindra Forgings Mauritius Limited and Mahindra Forgings Overseas Limited with your Company. The Scheme which was approved by the Honourable Bombay High Court on 23rd November, 2007, was made Effective on 27th December, 2007 and the appointed date for the same was 1st April, 2007.

The shareholders of Transferor companies were allotted 4,05,47,150 equity shares of Rs. 10/- each, as of 27th December, 2007 (i.e. the Effective Date of the Scheme). Consequent upon the allotment the paid up share capital of the Company stands increased to Rs.68,56,77,360/- comprising of 6,85,67,736 equity shares of Rs. 10 each.

In accordance with the Scheme, the authorised share capital of your Company stands increased from Rs. 78,94,26,386/- to Rs. 117,94,26,386/-.

Consequent upon allotment of equity shares by the Company to the shareholders of the Transferor Companies, the shareholding of Mahindra & Mahindra Limited (M&M) stands increased to 60.56% of the Company's enhanced equity capital as a result of which your Company has become a subsidiary of M&M effective from 27th December, 2007.

The merger strengthens your Company and all its constituent companies and enables them to compete more effectively in the global market place by capitalizing on their collective presence in both developed and developing countries with the respective advantage of sophisticated technology and lower cost.

Financials

During the year under review, your Company registered a total income of Rs.22,096 Lakhs and an operating profit of Rs.2,337 Lakhs. The net loss before taxes stood at Rs.1,850 Lakhs. The non operating expenses during the year include amortisation of Goodwill of Rs.1,739 Lakhs. The gross income of the Company has grown by 1.82 % over the previous year.

Operations

Your Company's operations were hampered due to major breakdown of 5000 ton press which adversely affected the operating profits.

The said press is being overhauled thoroughly and will be operational by end September, 2008. The commissioning of two 4000 tons press and one 6300 tons press during the first quarter of the current year would provide necessary back up and your Company expects to compensate the loss of production and revenue in the first half of the FY 2008-09 resulting from the break down of 5000 ton press.

The Company has also set up a World class Tool Room and Die shop to upgrade operations. The effective capacity of the machine shop has also been enhanced significantly.

Management Discussion and Analysis

A detailed analysis of the Company's performance is contained in the Management Discussion and Analysis Report which forms part of the Annual Report.

Dividend

In view of the net loss for the year your Directors do not recommend any dividend.

Stock Options

Pursuant to the authority of the members granted at the last Annual General Meeting of your Company held on 25th July, 2007, the Remuneration/Compensation Committee of the Board of Directors of the Company ("the Committee") has formulated Mahindra Forgings Limited Employee's Stock Option Scheme. On the recommendation of the Committee your Company has granted 7,87,000 options to Eligible Employees during the year under review.

Details required to be provided under the Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 are set out in Annexure I to this Report.

Directors' Responsibility Statement

Pursuant to Section 217(2AA) of the Companies Act, 1956, your Directors, based on the representation received from the Operating Management, and after due enquiry, confirm that:

- (i) in the preparation of the annual accounts, the applicable accounting standards have been followed ;
- (ii) they have, in the selection of the accounting policies, consulted the Statutory Auditors and these have been applied consistently and reasonable and prudent judgments and estimates have been made so as to give a true and fair view of the state of affairs of the Company as at 31st March, 2008 and of the loss of the Company for the year ended on that date;
- (iii) proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;
- (iv) the annual accounts have been prepared on a going concern basis.

ANNEXURE II TO THE DIRECTORS' REPORT FOR THE YEAR ENDED 31ST MARCH, 2008

PARTICULARS AS PER THE COMPANIES (DISCLOSURE OF PARTICULARS IN THE REPORT OF BOARD OF DIRECTORS) RULES, 1988 AND FORMING PART OF THE DIRECTORS' REPORT FOR THE YEAR ENDED 31ST MARCH, 2008.

A. CONSERVATION OF ENERGY

(a) During the year, the Company has taken the following initiatives for conservation of energy:

Electrical Energy

1. Completion of Centralised Air Management with installation of energy efficient screw compressors. The latest addition is oil free, giving an additional saving in running costs which is also more environment friendly.
2. The new air ring main will provide a more constant and controlled volume to all areas of the plant.
3. The induction heaters installed on the new press lines are more efficient and will have lower power consumption per Kg.
4. The new water cooling towers do not require an electrical motor driven fan, therefore power consumption is eliminated. In addition, there will be a reduction in the water lost due to evaporation. A new ring main has also been installed to control volumes and reduce stoppages.
5. Energy efficient 3T gas fired heat treatment furnace is complete and the same conversion will be carried out on the 2T and 1T furnaces.
6. The introduction of the 132 KV power stations will provide a more stable supply, thus eliminating fluctuations that results in lost production and process losses.
7. Controlled cooling conveyors are installed on all press lines for micro alloy forging.
8. The new Rosler shot blasting machine is installed and operational.

(b) Additional investments and proposals, if any, being implemented for reduction of consumption of energy :

1. Improvement actions will be taken to reduce the number of billets that are heated but not forged. (Commonly called, dropouts). These actions will be driven by the introduction and adherence to the correct process controls.
2. Greater emphasis will be given to making quality parts that will not require additional operations. (Elimination of rework).
3. All die and tooling designs will be interrogated to identify ways to improve yield and reduce the number of defectives being produced.
4. Training will be given to all employees associated with the production process in order that they can contribute to the reduction in waste, improvements in quality, and productivity.
5. Preventive maintenance will be carried out on all press lines to reduce lost time and identify when corrective actions will be required.

(c) Impact of the measures taken / to be taken at (a) & (b) above for reduction of energy consumption and consequent impact on the cost of production of goods :

The measures taken as mentioned in (a) & (b) above have resulted in lower energy consumption.

(d) Total energy consumption and energy consumption per unit of production as per Form – A of the Annexure to the Rules in respect of Industries specified in the Schedule.
