28th Annual Report 2009-10

Explanatory Statement under Section 173(2) of the Companies Act, 1956.

Item No.4

Employee Stock Options are an opportunity for employees to share in a Company's growth and align their interests with those of the Company, to attract, retain and motivate talented human resources for the Company.

It is therefore proposed to introduce Employee Stock Option Scheme - 2010 (ESOS- 2010) to cover Employees and Directors of the Company as may be recommended by the Board of Directors or Remuneration Committee of the Board. ESOS-2010 will conform and adhere to the Guidelines and Regulations prescribed from time to time by the Securities and Exchange Board of India and other regulatory requirements.

As per the Resolution passed by the Board of Directors of the Company at their Meeting held on April 29, 2010, the Remuneration Committee comprising of Independent Directors viz. Mr. Vinayak Patil, Mr. B K Sharma and Mr. Jayendra Shah has been vested with the powers to formulate the detailed terms and conditions of the ESOS- 2010, its administration and also to decide upon all matters relating to the grant of options and to frame suitable policies and systems to ensure adherence to the Guidelines and Regulations prescribed by the Securities and Exchange Board of India.

The Remuneration Committee has finalized the terms and conditions of the ESOS. It has decided on various matters relating to the grant of options and also framed suitable policies and systems to ensure adherence to the Guidelines.

Salient features

The salient features of the ESOS as approved by the Remuneration Committee are given below.

a) Total number of options to be granted.

The total number of Options that may, in the aggregate (to the employees and independent directors of the Company), be granted under this Scheme, shall not exceed 5% of the paid up equity capital of the Company at any point of time. One Option would entitle the holder of the Option right to apply for one Equity Share of Rs.10 each.

b) Employees

- a permanent employee of the Company working in India or out of India; or
- a director of the Company, excluding Director(s) belonging to the promoter group; or
- an employee/Director as defined in sub-clauses (a) or of a subsidiary of the Company that carries on business in India.

c) Grant of Options

The grant of Options will be based on such parameters and criteria as may be decided from time to time by the Board/Remuneration Committee, in its absolute discretion.

d) Vesting & Lock-in

The Vesting Period for the Options will be as under:

After the date of the Grant, upon the expiry of	% of Options which would vest
12 months	25% of the Options
24 months	25% of the Options
36 months	25% of the Options
48 months	25% of the Options

There is no Lock-in period under the Scheme.

The Board may at its sole discretion accelerate the Vesting Period with respect to any of the Options granted under this Scheme.

The Employee shall not have the right to receive any dividend or to vote or in any manner enjoy the benefits of a shareholder in respect of Option granted to him, till such Shares are issued on exercise of Option.

e) Exercise Price

- The Exercise Price payable by the Employee for exercising the Option granted to him by the Company under this Scheme shall be Rs. 35.00 per share.
- The Exercise Price shall be subject to a fair and reasonable adjustment as regards the number of shares and exercise price in the event of the Company distributing Bonus Shares, Rights Shares or Stock Split so that the holder of any Option, who has not opted for conversion before the record date for the issue of the said Bonus Shares, Rights Shares or Stock split shall be entitled to receive the number of Shares of the Company which he would have held or have been entitled to receive on such Option being exercised immediately prior to such record date had such Bonus or Rights shares not been issued or Stock split not occurred.

f) Exercise Period and process of Exercise

"Exercise Period" means the period of 2 (two) years after Vesting of the Options, within which the Employee should exercise his right to apply for Shares against the Options vested in him in pursuance of the ESOS else the Vested Options shall lapse. The options shall be deemed to have been exercised when an Employee makes an application in writing to the Company for the issuance of Equity Shares against the options vested in him.

Subject to the time frames, which may be fixed by the Remuneration Committee every year for exercise of the Options, (which shall not be for a period less than 6 weeks in any financial year), the Employee has the right to exercise all the Options vested in him at one time or at various points of time within the Exercise Period as he/she deems most appropriate. Provided however, that, the Employee shall not be entitled to exercise at point of time less than 25% (Twenty Five percent) of the Options vested in him.

The exercise date would be reckoned as the date on which the application made by the employee in the format provided by the Company is received by the Com-

pany along with a cheque / demand draft, favoring the Company, payable at Nashik, for the total money payable by him in respect of the Exercise Price, calculated as the number of Options exercised multiplied by the Exercise Price per Option subject to realisation of the cheque. If the day on which the application is received happens to be a holiday as per the Company's rules then the same will be presumed to be the previous working day of the Company.

g) Appraisal Process

The process for determining an employee's eligibility will be decided by the Board/Remuneration Committee, based on factors such as seniority, period of service, performance record, present and future potential and such other criteria as may be considered by the Board/Remuneration Committee in its absolute discretion.

In case of Directors, the eligibility would depend on the period for which the office of Director is held by him and such other factors as the Remuneration Committee may think appropriate.

The Remuneration Committee at its discretion may extend the benefits of the Scheme to a new entrant also.

h) Maximum Number of Options

The maximum number of Options that can be granted per calendar year under the Scheme to any individual Employee will not exceed an entitlement of 15,000 (Fifteen thousand) Shares. The aggregate of all such grants shall not exceed 5% of the paid up equity capital of the Company. One Option would entitle the holder of the option the right to apply for One Equity Share of Rs. 10/- each.

i) Disclosures and Accounting Policies

The Company will conform and adhere to the disclosure and accounting policies prescribed by the Securities and Exchange Board of India Guidelines.

j) Variations

The terms of any Scheme with respect to options vested but not yet exercised, may be modified by the Board/Remuneration Committee, provided such variation is not prejudicial to the interests of the option holders.

k) Method of Valuation of options

a. The Company shall use the Fair Value Method, as defined in the Guidelines as amended from time to time, to value the options.

b. In case the Company calculates the employee compensation cost using the intrinsic value of the stock options, the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the options, shall be disclosed in the Directors' Report and also the impact of this difference on profits and on EPS of the Company shall be disclosed in the Directors' Report.

Your Directors recommend the Resolution at Item No. 4 for your approval.

The Directors of the Company may be deemed to be concerned or interested in these Resolutions only to the extent of any Stock Options granted to them and the resultant Equity Shares issued, as applicable.

MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW

Traditionally, farmers in India have leveled their land and flooded it with canal irrigation water. This results in enormous water losses through evaporation and flooded fields. This mattered little in the 19th and early 20th century when the water and land were relatively easily available but it matters hugely today. The canal irrigation technology of 19th century is obsolete, wasteful and can not meet the needs of 21st century. Today, farmers want to grow multiple crops and for this they need water on demand. Hence canal based irrigation requires replacement by Piped Water which will feed Micro Irrigation Systems (Sprinkler and Drip Irrigation). Piped water greatly economizes the use of both land and water. The Governments of Andhra Pradesh, Gujarat and Rajasthan have started a Pressurized Irrigation Network System (PINS) in Canal Command areas. This stores the water delivered by canals, which subsequently delivers it to fields by Piping Network for use through MIS. This programme is expected to gain momentum in the coming years. This approach has enabled Israel to irrigate the deserts and can do wonders for India.

Micro Irrigation (MI) has taken roots in India. Andhra Pradesh, Gujarat and Tamil Nadu are operating Mega Projects. Other leading states are Maharashtra, Rajasthan, Karnataka, Madhya Pradesh and Chhattisgarh. MIS has enabled the farmers to nearly triple the irrigated areas using same amount of water and improve produce quality.

It has become the most “on demand” technology and has started a playing a vital role in agriculture. It has ample market potential with continuously rising population.

OPERATIONS / SEGMENTWISE PERFORMANCE

In addition to Micro Irrigation Systems consisting of Drip and Sprinkler Irrigation, the Company manufactures specialized pipes for Water and Gas Distribution Systems and Industry. The segment wise performance is stated in Schedule ‘Q’ of the Annual Accounts.

The Company, with current year Sales Turnover of Rs. 75.21 Crores, has posted notable growth of 21% over preceding year. This growth is particularly very encouraging against the backdrop of limited access to working capital and recessionary conditions in the market. Despite the tight liquidity environment, the Company has grown consecutively in the last 3 years. Consistent growth in top line coupled with product mix has helped to turnaround the Company. In the current financial year, your Company has generated a cash surplus of Rs. 2.99 Crores.

With multiple challenges of managing growth and liquidity constraints, the Management is aggressively focusing on increasing both the top line and bottom line by adding new products and expanding into the newer markets. Further expansion of business demands increased capital infusion for working capital needs as well as Capex requirements of the

Company. It would be a major challenge to fund the growth of the Company.

The Management is confident that this way the Company will be able to push itself on the growth path which will increase the value for all its Shareholders.

SOME RISKS AND CONCERNS

The raw material prices and availability continues to be a matter of concern for the industry.

The major risks and threats to the industry are improper distribution of rainfall, constant fluctuation in polymer prices, competition from unorganized sector, Government policies and drought like situation for consecutive years.

Seasonality is another major problem for all Irrigation Companies as the major business is derived in non – monsoon months. However, with the well spread operations in western, southern and northern States, where monsoon months vary, the Company's operations are balanced to certain extent.

The continuing healthy growth of agriculture, ambitious mega micro irrigation projects of Gujarat and Andhra Pradesh and the increasing demand for micro irrigation systems in the other States will provide ample opportunities for growth of the business.

INTERNAL CONTROL SYSTEMS

The Company's well defined organization structure, documented policy guidelines, predefined authority levels and extensive systems for internal controls ensure optimal utilization and protection of resources. The internal control systems are guided to ensure that assets are safeguarded against loss. The Company's internal auditors review business processes and controls. The Audit Committee of the Board then discusses significant findings and corrective measures initiated.

HUMAN RESOURCES

During the year under review, the Company has undertaken extensive steps for optimizing the use of its manpower through automation, productivity improvement and role enrichment.

There is a continuous focus on enhancing productivity in all facets of our operations. Training and development continues to be an area of prime focus. The industrial relations climate of the Company remained cordial during the year and continues to be focused towards improving productivity, quality and safety.

As on March 31, 2010, the total number of employees of your Company was 252.

CAUTIONARY NOTE

The Management hereby cautions that this Management Discussion and Analysis contains forward looking statements that involve risks and uncertainties. Actual results, performance or achievements and risks /opportunities could differ materially from those expressed or implied in this statement. This statement may be read in conjunction with the Company's financial statements and the Notes thereto.

REPORT ON CORPORATE GOVERNANCE

The Company believes in and practices Good Corporate Governance. Transparency, accountability and responsibility are the essential character and guiding principles for all decisions, transactions and policy matters.

The Good Corporate Governance practices have further guided the Company to not only work towards the enhancement of shareholder value but also towards overall betterment of all stakeholders viz. shareholders, creditors, customers and employees. Efforts are made not only to comply with the Regulatory requirements, but also by being responsive to the requirements of all concerned.

In compliance with the provisions of clause 49 of the Listing Agreement and other applicable provisions of the Companies Act, 1956, your Directors submit their report.
