The company undertakes no obligation to publicly update or revise any of the opinions or forward looking statements expressed in this report, consequent to new information, future events or otherwise.

The company has adopted the best and the most sophisticated technology to suit Indian needs. The company as a part of reducing manufacturing cost of products as also to strengthen the bottom line, has decided to adopt the policy of becoming 'backbone provider' to the industry through focusing on various components.

Industry Structure and Development

The company's products include Copper, Brass, Stainless Steel and alloys of Copper in form of Bars, Tubes, Wires, Ingots and Profiles. These products have applications in various engineering and electrical industries which manufacturing metal parts and components. Non-Ferrous Metal industries normally manufacture some of the above items and specialize in one of the items, however Mardia Extrusions Limited (MEL) produces all the above items and also specializes in irregular shapes and sizes of profiles and sections.

The growth in non-ferrous metal industry is directly related to the growth of industries having engineering and electrical applications like automotive, gas valves, pumps, fans and industrial machinery. High volume segments are catered by domestic manufacturers. MEL primarily caters to Various Engineering and Electrical industries in the country.

Material Developments

As per the Audited Accounts as on 31/03/1999, the Company's net worth has been fully eroded and the Company has filed the reference to B.I.F.R. under section 15 of Sick Industrial Companies (Special Provision) Act, 1985. The Company has been registered with B.I.F.R. ICICI Bank has been appointed as the Operating Agency. Hon'ble A.A.I.F.R. has opined that:

"Several positive developments have taken place since the impugned order was passed. The appellant company has arrived at a settlement with all its secured creditors and the amounts due as per the settlement agreement have been paid.

In view of the significant positive development that has taken place, there is now a distinct possibility of revival. We, therefore allow the appeal and set aside the impugned order dated 17th September 2004. The matter is remanded to B.I.F.R. with a direction to formulate a rehabilitation scheme for the revival of the appellant company and pass appropriate orders in accordance with law."

Hon. B.I.F.R. thereafter appointed ICICI Bank as the Operating Agency for review and act upon the rehabilitation scheme. ICICI Bank has since submitted the DRS scheme to BIFR. (Hon. BIFR called meetings and the matter is under consideration).

During the year the Company has rented out part of its premises at Silvassa, which was lying unutilized by the Company, for a period of 2 years only ending 31.03.2009.

PROPOSAL FOR MERGER OF GROUP COMPANIES :

In order to improve the shareholders value and to augment the strength and achieve the synergy among the group companies, which are all registered with BIFR, the Board of Directors, subject to approval of the required authorities, have proposed to submit a rehabilitation scheme to BIFR, including the possible turnaround of the group companies together by way of merger and provide liquidity to the stakeholders at large.

Opportunities and Threats

As mentioned above, the growth of metal industry is linked to the growth of the major engineering and electrical applications industry, i.e. the Automobile / Engineering / Railways. Demand growth in Non-Ferrous Metal industries will largely depend on growth of the original equipment manufacturers (OEM) in the automobile industry, engineering & electrical segment and opportunities in the international markets. The demand for MEL's growth will heavily depend on the growth in served industrial Engineering and Electrical industries business both in domestic and international markets.

The growth in demand for Non-Ferrous Metals will depend on the growth of Industrial and infrastructural activities. Liberalization of industrial policy, WTO driven reductions in duty structure, growth in demand in export markets, and increasing demand for industrial products may result in an increase in demand for large Non-Ferrous Metals.

Segment wise performance

The Management reviewed the disclosure requirement of segment wise reporting and is of the view that since the Company manufactures Non-Ferrous Metals and related products which is a single business segment in terms of AS-17, a separate disclosure on reporting by business segments is not required.
