During the year under review your Company has achieved a gross turnover of Rs. 1513.92 Lacs as against Rs. 455.64 Lacs during the previous year. Due to severe marketing constraints the Company could only achieve very low capacity utilisation of its main products. Our foreign collaborators are in difficult financial crisis and due to the failure on the part of our collaborators in fulfilling their buy-back promises, the Company could not achieve targeted production and sales of its main products, Your Company is also burdened with very high interest charges (Rs. 475.67 Lacs During the year under review). However, to compensate for the some of the expenses, your Company produced certain items and components with lower value addition.

Your Company has explored the possibilities of manufacturing other related products and your Directors are confident of achieving better production and sales of its new products.

The Company's products have been highly appreciated by almost all its customers. How ever, the actual consumption of our products is very low in India and the Company is trying its best to create consumer awareness.

The reasons for unsatisfactory performance by your Company are mainly due to :-

- A Failure on the part of the Foreign Collaborators to fulfill their buy-back commitments, leading to low capacity utilisation of the Company's main products.
- B. Heavy interest burden.
- C. Overall poor market condition resulting in poor sales of our main Market
