- (iv) that the Directors had prepared the annual accounts on a going concern basis.

Management Discussion And Analysis

Opportunities and threats:

Opportunities:

The Company's plant, in the West Coast of India, has state-of-the-art facilities with ISO 9001 and 14001 affiliations. The company is well connected by road, rail and sea. The company enjoys the benefits of the lowest power cost in the country, proximity to the sea port and cordial labour relations. The Company manufactures alloy and special steel through the Electric Arc Furnace route to produce Alloy Steel Billets, Flats, and Rounds. Most of

the billets produced are for captive consumption for re-rolling.

The main product of the Company is spring steel flats, which is the key component for manufacture of leaf spring used in automobiles.

The Steel industry is presently doing well due to the growth in automobile, construction and infrastructural activities.

Threats:

The company had to face a severe drop in demand during the global economic meltdown especially in the months during October 08 to February 09.

Risks and Concerns:

Nature of the industry:

The company presently produces Alloy Steel rounds and Steel flats for the automobile industry. This segment has very high competition. The management is considering development of alternate products to improve the company's performance.

Technology:

With technology obsolescence being an inherent risk in any industry, the Company is constantly upgrading and modernising its manufacturing process. The company has commissioned an **Electro Magnetic Stirrer** and has commissioned a **Vacuum Degassing System / Vacuum Oxygen Degassing** for the melting process for improvement in the quality of the steel billets. The company is now in a position to cater to the stringent requirement of the Automobile, defense and Railways sectors.

Financial:

The impact of the Global economic meltdown has had an adverse impact on the liquidity position of the company's finances. However, since May 2009, with the demand for the company's products picking up, the company's financial position is gradually improving.

Outlook:

With the focus on infrastructure development in the Union Budget 09, which will benefit the auto sector, the company envisages that the demand for its products will also increase.

Internal Control Systems

There are adequate internal control procedures commensurate with the size of the Company and the nature of its business for:

- Purchase of stores and assets, and sales of its products.
- Adequacy of accounting records and
- Authorisation for and record of transactions.

Financial Performance

The current year's financial performance has been discussed in detail in the Directors' Report forming part of this Annual Report.

Industrial Relations

Industrial relations have remained cordial and good.

Cautionary Statement

Statements in this report describing the Company's objectives, projections, estimates and expectations may be "forward looking statements" within the meaning applicable in securities law
