DIVIDEND

In the absence of profits during the current financial year, your Directors are unable to recommend any dividend for the year under review.

OPERATIONS

A review of operations of the major businesses of the Company for the financial year ended September 30, 2009 is detailed as under:

1. SUGAR DIVISION

The year 2008-09 witnessed country wide cane shortages and consequential decrease in sugar production. The cane crush of Mawana Sugars Limited was 2.30 Mn Tons in 2008-09 as compared to 3.34 Mn Tons last year.

The cane availability in the 2009-10 season will also be low. In view of the above, all out efforts were made to give a thrust on cane development with the main focus being on increasing cane intensity and maintaining cane crop health. There are no arrears of cane payment.

Because of lower production and consequentially lower stocks in the country, sugar prices rose sharply from Rs.1750/Qtl in September 2008 to Rs.2950/Qtl in September 2009.

All the three sugar plants performed satisfactorily during the year. The sugar losses reduced from 2.16% in 2007-08 to 2.06% in 2008-09.

The surplus power generated by the Cogen was exported to the State grid.

The distillery operations were streamlined and rectified spirit was sold to various customers. As the Oil Marketing Companies had entered into three year contract for ethanol supply before our distillery was commissioned we did not manufacture any ethanol this year.

2. CHLOR ALKALI DIVISION

The business performed well during the period October '08 – March '09. However during the period April '09 – September '09 the plant operated at low capacity due to reduced availability of power from Punjab State Electricity Board. The sales during this period were low due to less production and low prices of caustic soda because of surge of imports in to the country at abysmally low prices.

The products and their quality were well accepted in the market during the entire year.

Power contributes towards major portion of the input cost and was sourced from the Punjab State Electricity Board. Power availability during the second half of the year was severely affected. The scanty rain fall and drought like conditions in northern India resulted into diversion of major portion of the power to agriculture sector and thus less availability to the industries.

At present, PSEB is sole supplier and other options including power purchase through Energy exchange and own captive power plants are being explored.

JOINT VENTURE

CERATIZIT INDIA PVT. LTD. (Formerly Siel Tizit Limited). During the financial year ended February 2009, Ceratizit recorded a total sales income of 482.45 Mio INR as against 524.65 Mio INR last year, a decrease of 8%. The net profit of 31.77 Mio INR was made during the year as against 82.77 Mio INR last year, a decrease of 62%.
