1. INDUSTRY

This chapter on Management Discussion and Analysis forms a part of the compliance report on Corporate Governance.

As per the Economic Survey 2011-12, India's financial services sector will enjoy generally strong growth during coming years, driven by rising personal incomes, corporate restructuring, financial sector liberalization and the growth of a more consumer-oriented, credit-oriented culture. This should lead to increasing demand for financial products, including consumer loans (especially for cars and homes), as well as for insurance and pension products.

We Endeavour to Fly Higher
“Kites rise highest against the wind, not with it.” — Winston Churchill

Safe, secure, comfortable and confidential, Air Mega is the answer to all Air Charter needs. We provide services similar to all those available on a commercial flight, but have better flight services.

Our exclusive nationwide **Air Charter Services** are available 24 hours a day & 7 days a week. We have aircraft that is equipped to fly any place on the globe and serve our customers anytime that they need us. Our goals are personalized service and complete safety, and we have been committed to fulfilling these goals ever since our entry in the aviation industry.

2. Opportunities and Threats

2.1 Opportunities

Financial Services Sector:
Financial Sector is an ever green market. The following are the growth drivers for the sector which shows the brighter prospects for the segment:

GROWTH DRIVERS

- Financial Inclusion
- Increasing in incomes with potentially high penetration of both banking and Share Market products to increase the market size
- Regulatory Reforms

Air Chartered Services:
Air charter services in India have seen a fast track growth in the last few years though it is not a much explored area for business in India but It has a lot of potential in India, which has not so far been tapped by big corporate, big hospitals and tourism. The following are the growth drivers for the sector which presents big potential for growth of the business:

GROWTH DRIVERS

- Government
- VIP movements
- Tourism
- Medical Insurance Companies
- Corporate Travel
- Pilgrimage

2.2 Threats

Regulatory decisions and changes: On the regulatory front, changes in policies by the regulatory authority may impact on the profitability of the Company. The Company may face competitive pressure from other players in the market, which may emerge due to the lucrative market in future.

Since the Air Charter industry is new in India, most people are unaware of its services and benefits. People might be uncertain of using this service due to high costs, and the very affluent are naturally of a limited number. Frequent changes in policies by regulatory authorities come as a hurdle for the Air Chartered Industry. Since a large number of Airways companies have come into the business, your company may face competitive pressures from existing and new players in the market.

So the Government must promote Air Chartered Services and thus help in the growth of this convenient and reliable mode of transportation. Government support is necessary if the Airways industry is to grow at an incredible rate. Rising fuel prices is another threat to the air charter industry. This along with a limited number of passengers will cause companies to increase their fare and service charges, thus negatively impacting the industry. So, government participation is important to take Indian air charter industry to a world-class level.

However, In spite of all the challenges the Air Chartered industry is facing, the future still looks very bright.

3. Segment Wise performance

During the Year 2011-12, Your Company operated in Finance & Investments and Air Chartered Segment:

	183.03	358.01

4. Outlook

The contours of the financial markets are expanding with the advent of new technology, innovations in products and fast changing customer expectations. The Indian financial services sector comprises a good blend of domestic and foreign participants. Opening up of the financial markets has resulted in competition and greater efficiency; however, foreign participation could also bring in the baggage of increased risk and exposure as recent events have shown. Stability is therefore a critical need for financial markets for which safeguarding mechanisms need to be established, to prevent systemic risks and absorb shocks. Taking into consideration of it your Company also expects a moderate growth. The key drivers for the growth of air charter services in India are primarily government, VIP movements, tourism, medical insurance companies, corporate travel, pilgrimage, and others. Taking into account this factor, the Air Charter Business is also moving with pace simultaneously and we plan to expand our business in coming years.

5. Risks and Concerns

For a company to grow, necessary risks are always involved. Risks indicate progress, but they are never fixed. They may vary from the industry type to planning strategies and various other factors. Some of the threats concerning this company are:
