MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Management Discussion and Analysis Report under the Listing Agreement with the Stock Exchange forms part of this Annual Report.

Overview

The financial statements have been prepared in compliance with the requirements of the Companies Act, 1956, guidelines issued by Securities and Exchange Board of India (SEBI) and Generally Accepted Accounting Principles (GAAP) in India. Our Management accepts responsibility for the integrity and objectivity of these financial statements, as well as for various estimates and judgments used therein. The estimates and judgments relating to the financial statements have been made on a prudent and reasonable basis, so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present our state of affairs, profits and cash flows for the year.

Industry Overview and Development

The software industry in fact has spawned an emerging dotcom sector, and is responsible in large part for its current high powered growth. The strong software sector is now playing parent to the nascent dot com brigade, providing newbie with an edge over competitors. The dotcom companies have added repertoire of skills by including e-business and e-commerce solutions and expertise which is currently the hottest and most in-demand both in the overseas and in the domestic markets.

The dot com wave has also received a vital shot in the arm through the staunch backing of the strong NRI (Non-Resident Indian) community which has been spending power of the order of \$100 billion.

The Government too is playing indulgent patron. The Government of India's decision to increase Internet bandwidth will enable Internet penetration to rise which will help in expanding the dotcom business and increase the overall efficiency of the internet export business industry.

Opportunities and Threats

The company has a lot of scope of increasing its business in the coming times and have increased growth in sales because of the following edge which it has in comparison with other competitor firms as well as in the international business sector.

The company has a vast pool of English speaking and skilled manpower, which rates high on qualification, capabilities, and quality of work and work ethics which will help the company in its growth and expansion in the coming times.

The company's unique geographical location enables 24x7 service offering and reduction in turn around time due to time zone difference, thereby giving the best to its clients who will ultimately increase the company business and its performance. Our motto of manpower is providing services with not only proficiency but also efficiency.

With the increase in the dotcom business more and more firms are opting in this field which will increase the competition in the market with regards to cost and pricing. But the company has competed with the number of foreign firms as well as domestic competition in the past and is very confident of facing the future competition as well as emerging as a winner.

Because of the opening up of the software business sector and increasing work pressure of project deadlines there is a lot of pressure on people and salaries. The company has had a good track record of employee retention; therefore, it would be able to maintain the quality of the employees in the future as well.

MEGRI SOFT LIMITED

Internal Control System and their Adequacy

Megri Soft Limited has adequate internal control system and monitored by the Internal Audit Committee. The Audit Company is meeting periodically for reviewing the performance of the company and formulating policies/issuing guidance to the management as well for the internal audit of the company.

Financial Overview

The company is adequately funded to take care of its current growth plans through the funds generated by its operations.

Material Development in Human Resources and Environment

The company's track record in terms of people retention is very good. To effectively meet the future challenges of the company, plans have been drawn up and they are being executed to equip the human resources accordingly. Therefore, the company is adequately prepared for any risk in this business. The business of the company is non-polluting.

Statutory Compliance

The compliance officer ensures statutory compliance.

Cautionary Statement

Statement in the management discussion and analysis describing the company objectives, projections, estimates, expectations may be "forward looking statements" within the meaning of applicable securities law and regulation. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the companies operations include economic conditions affecting demand/supply and price conditions in domestic as well as overseas markets in which the company operates changes in the government regulation, tax law and other statutes and other incidental factors.
