Risk Management

Risks are inherent to our business as our operating environment is complex, highly regulated, and dynamic. To attain our strategic growth objectives, protect the interests of all our stakeholders and meet legal requirements we have an established process of identifying, analyzing, and responding appropriately to all business risks. We have a well-embedded Risk Management Framework to ensure that we are well-placed to manage any adverse effect posed by financial, operational, strategic or regulatory related risks. Our framework adopts appropriate risk mitigation measures for identified risks across functions. The process ensures that new risks, which might arise, or the impact of existing risks which might have increased, are identified and a strategy is put in place for mitigating such risks. The major risks identified by the management are regulatory, competition, supply chain disruption, cyber and data security along with economic and political risks. A review of the risk management policy is carried out annually by the Risk Management Committee and the Board of Directors.
