MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE

The Company is engaged in the manufacture and sale of Galvanised Steel Tape, Cold Rolled Steel Strips, H.R. Pickled Oiled Coils/Strips, C.R. Flat Wire Strips, Galvanised Wire and Galvanised Strips. These products are used by a wide range of user industries such as Auto Components, Power Transmission Equipment, White Goods, Defence Equipment, Electrical Equipment, Communication Cables, Railway Signaling Cables etc.

OPPORTUNITIES & THREATS

The products of the Company are used predominantly in the Auto Components and in Power Transmission (Cables) industries. With the Indian economy growing rapidly, huge investments in the power sector is expected and consequently a good demand for power cables is expected, which in turn will steer the Galvanised Wire sales of the Company.

RISKS & CONCERNS

The availability of Wire Rods continues to be a cause of concern as the available capacities are not sufficient vis-a-vis the demand. As such, this continues to be a constraint on further growth of the Galvanised Wire business of the Company. Barring this, the Company is adequately geared to achieve its growth plans.

OUTLOOK :

C.R.STRIPS & H.R.PICKLED OILED

C.R.Strips and H.R.Pickled Oiled Coils & Strips are mainly used in the Auto Components and White goods sectors. With the economy growing and the income levels on the rise, the demand for automobiles and white goods will continue to be buoyant. The Company's products have wide acceptability in these segments and as such the outlook is promising.

GALVANISED WIRES

The eleventh five year plan envisages a huge investment of Rs. 700 billion in the power transmission sector. Of this about 10% is expected to be the outlay earmarked for power cables. This in turn would drive the demand for Galvanised wire which are likely to be used in the increased laying of power cables for transmission. As such the future for Galvanised Wire holdout good promise.
