

#### FROM THE CHAIRMAN

The year ended March, 2001 was very challenging for Indian economy. A series of natural calamities including the recent earthquake in Gujarat had a dampening effect on economy.

With the impact of continued high cost of inputs, unremunerative prices of the products in the domestic and International market and slackness in demand have affected adversely.

Transitional effect of globalisation and thereby stiff competition in the domestic as well as international market also played its role for the sluggishness in the industry.

MetroChem's products and services are recognised for their superiority in quality, timely delivery and value for money. We, at MetroChem, endeavour for product diversification and improvement through our inhouse Research and Development facilities for upgradation for successful survival. Specially in the prevailing unfriendly and volatile market conditions. On the other hand, efforts are made to reduce cost of production to make our products competable which alone will ensure profitable business operations in the Global Competition which is there to stay.

MetroChem has always believed that "when the going gets tough, the tough gets going". These are difficult times, not only for the Dyes and Chemical industry, but also for Indian industry per se; but we are confident of our ability of "Meeting the Challenges" and "Beating the Odds".
