

An abstract graphic design featuring three overlapping circles of varying sizes, each composed of concentric rings in shades of gray. Three thin, light gray diagonal lines intersect the circles. One line passes through the top-left of the largest circle, another through the top-left of the middle circle, and a third through the top-left of the bottom circle. The circles are arranged in a triangular pattern: one large circle at the top right, a smaller one in the middle, and another large one at the bottom right.

Management Discussions & Analysis

MACRO ECONOMIC ENVIRONMENT

The year 2012 had been a year of slow growth world over and as per IMF forecast Global Economy is likely to show a growth of 3.3% during 2013 as compared to growth of 3.2% during 2012. The Global Economies witnessed a subdued growth with diverging growth paths across major economies. US economy which has registered a modest recovery is again subject to the adverse impact of the budget sequestration which will gradually gain pace during 2013. Japan's economy has shown signs of improvement on account of monetary and fiscal stimulus undertaken. The sovereign debt crises and the danger of a banking system meltdown in peripheral euro zone countries coupled with contraction in its major economies like Germany has resulted in negative growth in Euro zone.

The growth in the Emerging Market Economies which are viewed as growth engines of the world economy world over have also slowed down with Brazil and South Africa registering accelerated growth where as Russia, China and India a lower growth.

According to the Central Statistics Office's advance estimate of GDP growth, Indian Economy is expected to grow at 5% during the year 2012-13 as compared to a growth of 6.21% registered during 2011-12. This has been mainly on account of weak industrial activity compounded by domestic supply bottlenecks and slackening of external demand. This has also slowdown the growth in the service sector which has been the main driver of the growth.

The Reserve Bank of India in order to strike a balance in growth- inflation dynamics has initiated various measures during 2012-2013 to provide greater liquidity to financial system. This has resulted in moderating the headline inflation within its acceptable level. The food inflation as measured by new combined (rural and urban) consumer price index (CPI) remains in double digit is a cause of concern. The measures initiated are expected to result in moderate growth in GDP in the second half of 2013-2014.

REVIEW OF OPERATIONS

The performance of the Company remained lackluster during the year and the Company could not perform well due to the reasons of recession, higher inflation rate, lack of demand in Money Market in terms of safety and security as well as disappointing performance of Indian Economy.

Gross income from operations remained at ₹ 10.16 Lac for the year in comparison to last year's figure of ₹ 5.82 Lac. The Net Profit of the Company after Extra-Ordinary Items stood at ₹ 0.09 Lac in comparison to last years' Loss of ₹ 24.76 Lac.

BUSINESS SEGMENT

Being one of the Non Banking Finance Company (NBFC), the Company was into the business of Investment in Capital and Money Market during the year; in accordance with the Accounting Standard 17 notified by Companies (Accounting Standards) Rules 2006.

OPPORTUNITIES

The Indian money market is "a market for short-term and Long term funds with maturity ranging from overnight to one year and includes financial instruments that are deemed to be close substitutes of money. It is diversified and has evolved through many stages, from the conventional platform of treasury bills and call money to commercial paper, certificates of deposit, repos, FRAs and IRS more recently.

The Indian money market consists of diverse sub-markets, each dealing in a particular type of short-term credit. The money market fulfills the borrowing and investment requirements of providers and users of short-term funds, and balances the demand for and supply of short-term funds by providing an equilibrium mechanism. In Stock Market or Capital Market, the first and foremost thing of strength is its ability to provide high return. SEBI is a regulatory body of Indian stock market which protects the interest of the investors which is an added benefit of Stock Market. Large number of securities which provides medium for investment and thus people can make money by way of investing wisely in Stock Market. Large numbers of Brokers are there in Market who plays a role of facilitator for investment.

MINOLTA FINANCE LTD.

THREATS & CONCERNS

The Indian economy is caught between low growth and stubbornly high inflation. Last month, the International Monetary Fund (IMF) revised the year-over-year GDP growth forecast of India to 5.7 percent for 2013, down from its January estimate of 5.9 percent. The IMF attributed structural factors as the primary reasons for the poor performance, rather than the cyclical factors cited by the government last month. Additionally, the IMF expects consumer-price inflation to remain at around 10 percent in 2013 due to a rise in food and fuel prices. Lately, there have been signs of easing inflationary pressures. The wholesale-price inflation has steadily decreased since late 2012, while consumer-price inflation went below 10 percent this May, as the economy operates below capacity. However, the government's attempt to reduce the fuel subsidy bill by raising administered fuel prices will likely reverse the fall in inflation in the remaining part of the year.

The situation for India is unique because both fiscal and monetary policies have had limited flexibility to bail out the economy. High fiscal and current-account deficits restrict the government's ability to undertake proactive stimulus programs to boost the economy. The level of domestic inflation remains higher than the Reserve Bank of India's (RBI's) comfort level, which limits the RBI's ability to ease monetary policy further. Despite such pressures, the RBI is expected to reduce the policy rates, though marginally, in order to boost economic activity in the country.

Fiscal deficit is expected to be 5.3 percent of GDP in 2012-2013, while the current account recorded the largest-ever deficit of 6.7 percent of GDP in the third quarter of 2012-2013. The government's strategy of fiscal consolidation has repeatedly gone off course since 2008 due to a series of unfavorable developments. Since last September, the government has taken bold measures to cut down fuel subsidies to prop up public finance, helping the government to restrict the fiscal deficit within the revised target of 5.1 percent of GDP. However, with general elections being just a year away, progress in this direction will be limited and even likely reverse.

RISK MANAGEMENT

The Company has aligned its policy on risk assessment in line with global approach and risk assessment reports are reviewed on regular intervals. The Company has adopted a focused approach towards risk management in the form of a corporate insurance program which has the goal of optimizing the financing of insurable risks by using a combination of risk retention and risk transfer. The program covers all potential risks relating to business operations of the Company at its various locations.

The Company's business critical software is operated on a server with regular maintenance and back-up of data and is connected to centralized computer center with two physically separated server parks operated by the Company. The system's parallel architecture overcomes failures and breakdowns. Reliable and permanently updated tools guard against virus attacks. The global communication network is managed centrally and is equipped to deal with failures and breakdowns. Updated tools are regularly loaded to ensure a virus free environment.

INTERNAL CONTROL SYSTEMS AND ADEQUACY

The Company has implemented a comprehensive system of internal controls and risk management systems for achieving operational efficiency, optimal utilisation of resources, credible financial reporting and compliance with local laws. These controls are regularly reviewed by both internal and external agencies for its efficiency and effectiveness. Management information and reporting system for key operational activities form part of overall control mechanism.

The Company has retained the services of independent firms of professionals to function as internal auditors and provide reports on various activities covering observations on adequacy of internal controls and their recommendations. Findings of internal audit reports and effectiveness of internal control measures are reviewed by top management and audit committee of the Board. During the year, internal audit team of Company performed audits of major operational areas of the Company and carried out elaborate checks and verification and shared their findings with top management for remediation of minor gaps wherever required.

HUMAN RESOURCES

The Company recognizes that its success is deeply embedded in the success of its human capital. During 2012-2013, the Company continued to strengthen its HR processes in line with its objective of creating an inspired workforce. The employee engagement initiatives included placing greater emphasis on learning and development, launching leadership development programme, introducing internal communication, providing opportunities to staff to seek inspirational roles through internal job postings, streamlining the Performance Management System, making the compensation structure more competitive and streamlining the performance-link rewards and incentives.

The Company believes that learning is an ongoing process. Towards this end, the Company has built a training infrastructure which seeks to upgrade skill levels across grades and functions through a combination of in-house and external programme.

CORPORATE SUSTAINABILITY AND SOCIAL RESPONSIBILITY

The Company constantly strives to meet and exceed expectations in terms of the quality of its business and services. The Company commits itself to ethical and sustainable operation and development of all business activities according to responsible care and its own code of conduct. Corporate Social Responsibility is an integral part of the Company's philosophy and participates in activities in the area of education and health.

CAUTIONARY STATEMENT

Certain statements under "Management Discussion & Analysis" describing the Company's objectives, projections, estimates, expectations or predictions may be forward looking statement within the meaning of applicable securities laws and regulations. Although the expectations are based on reasonable assumptions, the actual results could materially differ from those expressed or implied, since the Company's operations are influenced by many external and internal factors beyond the control of the Company. The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent developments, information or events.

COMPLIANCE

The Compliance function of the Company is responsible for independently ensuring that operating and business units comply with regulatory and internal Guidelines. The Compliance Department of the Company is continued to play a pivotal role in ensuring implementation of compliance functions in accordance with the directives issued by regulators, the Company's Board of Directors and the Company's Compliance Policy. The Audit Committee of the Board reviews the performance of the Compliance Department and the status of compliance with regulatory/internal guidelines on a periodic basis.

New Instructions/guidelines issued by the regulatory authorities were disseminated across the Company to ensure that the business and functional units operate within the boundaries set by regulators and that compliance risks are suitably monitored and mitigated in course of their activities and processes. New products and process launched during the year were subjected to scrutiny from the Compliance Standpoint and proposals of financial services were screened from risk control prospective.

The Company has complied with all requirements of regulatory authorities. No penalties/strictures were imposed on the Company by stock exchanges or SEBI or any statutory authority on any matter related to capital market during the last three years except re-instatement fees paid to BSE for revocation of suspension from trading in the Equity Shares of the Company.
